

## TODAY IS CRUCIAL IN THE NEGOTIATIONS

Officials Believe It Probably the Last Day Carranza Will Be Given to Comply With the Demands.

If His Reply Does Not Arrive By Night or Is Unsatisfactory President Will Likely Ask Congress for Authority to Rescue Prisoners By Force.

President Determined That There Shall Be No Delay By Carranza.

By Associated Press Dispatch. Washington, June 28.—This was regarded by Washington officials as the crucial day in negotiations with Mexico.

It was probably the last day allowed General Carranza in which to comply with the United States' demand for release of 23 troopers held as prisoners at Chihuahua City.

If his reply, either by act or in a communication, does not arrive by night, or if it is unsatisfactory, President Wilson is determined to go before Congress, probably tomorrow, and ask authority to rescue the prisoners by force.

Indications were that Congress would comply promptly with President Wilson's request in case he should find it necessary to send an armed expedition against Chihuahua.

### SHORT SUPPLIES FOR OHIO GUARD

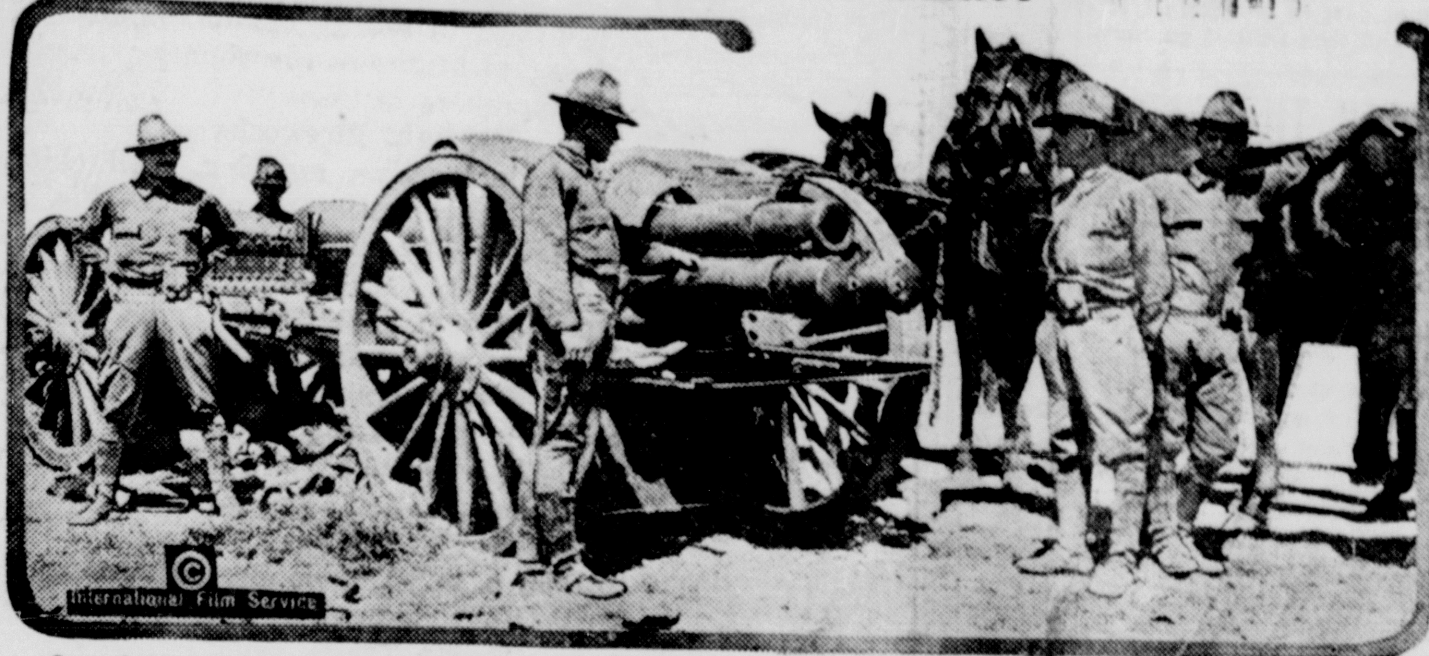

OFFICERS AND MEN DISAPPOINTED WHEN THEY LEARN ONLY ENOUGH COMES TO SUPPLY ONE REGIMENT.

By Associated Press Dispatch. Columbus, O., June 28.—Officers of the Ohio National Guard were plainly disappointed today when they learned the long expected shipment of ordnance from the Government arsenal at Rock Island, Ill., was sufficient to meet the requirements of but one regiment recruited to the required strength.

On receipt of these and other supplies, which were to arrive from St. Louis, depends the issue of order to guard organizations throughout Ohio to entrain from Camp Willis, near this city, Adjutant General Hough has repeatedly stated.

Officers, however, were of the belief that further shipment of the necessary supplies would soon arrive, and that it would yet be possible to issue orders tonight for the movement of one or more regiments to the mobilization camp tomorrow. Batteries A, of Cleveland and B, of Akron, have been ordered to the Camp of Battery C, at Briggsdale, and begin training under the direction of Major H. M. Bush, commander of the Ohio Guard Artillery. This was the only movement of guardsmen ordered today.

### CARRANZA SEEKS AID IN COURSE

BELIEVE DELAY IN REPLYING IS DUE TO EFFORT TO SECURE JUSTIFICATION OF COURSE.

By Associated Press Dispatch. Washington, June 28.—General Carranza's delay in replying to President Wilson's note demanding the immediate release of American soldiers held prisoners at Chihuahua is believed here to be due largely to his hope to have South and Central American countries agree fully to his course before he takes a final step.

President Wilson had a busy day. Senator Lewis, of Illinois, was one of the many callers with whom he discussed the Mexican problem.

"The President expressed the wish to me," Senator Lewis said, "that whatever discussion there might be in Congress on the Mexican problem would be conducted entirely in a non-partisan manner."

### OHIO'S SHARE OF EQUIPMENT ON THE WAY

Fifty Carloads of Equipment for Troops of Central Division Shipped From Government Arsenal.

By Associated Press Dispatch. Rock Island, Ills., June 28.—Fifty carloads of equipment for the troops of the Central Division have been shipped from the Government's arsenal here. Ohio's allotment of arms and ammunition and supplies is enroute.

Movement of the National Guard toward the border is under way. Troop trains are rushing southward bearing a large part of the Eastern regiments to Texas.

Fourteen thousand men were started on their way from eastern coast states last night and 40,000 more were ready to entrain today.

Most all of the Western States have started a part of their men to the border.

None of the Central Division have yet got under way but are expected to start tomorrow.

Railroad companies are working in conjunction to expedite the transportation, and red tape has been eliminated in transferring trains from various roads in order that there be no delay.

### RODGERS EXPECTS A REPLY TODAY

Believed Carranza Government Is Investigating the Carrizal Affair.

By Associated Press Dispatch. Washington, June 28.—Special Agent Rodgers at Mexico City, in a brief telegram received at the State Department early today, said he expected to be handed today Carranza's reply to the American note

demanding the release of soldiers taken prisoners at Carrizal.

The message, containing but two sentences, was the first word the Department had heard from Mr. Rodgers since he reported the delivery of the note.

It said it was believed the Mexican authorities were investigating the Carrizal affair, but gave no indication of what would be the reply to the American demands.

### NOTABLE ITALIAN ADVANCE

Intensity of Bombardment By British and French on German Lines Is Emphasized in Dispatches From Front.

French Holding Their Own North of Verdun—German Attacks Repulsed With Heavy Losses.

(Associated Press Cable) London, June 28.—The notable advance of the Italians over the ground from which they were forced in the recent Austrian offensive shows no signs of a halt.

They have pushed along the Asiago Plateau, occupied the other side of the Assa Valley and captured other important positions between Posina and Astico.

Dispatches from the British front in France and Flanders lay emphasis upon the intensity of the bombardment which is being brought to bear upon the German lines.

No important move of the infantry of this front, however, has yet been reported.

The French are holding their own north of Verdun, where continued German attacks in the Thiamont and Fleury sectors, delivered last

night, were completely checked by the artillery and infantry fire of General Nivelle's forces, according to this afternoon's bulletin from Paris.

### RELIEF CLAUSE STARTS RUMPUS

By Associated Press Dispatch. Washington, June 28.—Insistence upon its amendment to the House military drafting resolution striking out the million dollar relief appropriation for dependents of enlisted men, was ordered by the Senate today after a disagreement on that issue had been reported by its conferees.

### HARDENING PROCESS FIRST

Acclimation of Raw Troops Will Be Hastened By Long Hikes in the Hot Sun.

By Associated Press Dispatch. San Antonio, Texas, June 28.—Troops being rushed to the border will be at once put through a hardening service calculated to hasten acclimation and fitness for service in the heat to which they are unaccustomed.

Hikes of five miles under full equipment will be the first step, and the drill will be advanced until the men are fit for thirty miles a day.

### RUMOR SAYS MURDERERS WERE KILLED

By Associated Press Dispatch. Columbus, N. M., June 28.—Army officers are investigating a report that the murderers of William Parker and wife on their ranch southwest of Hachita were caught early today on this side of the border and killed.

A message received by a relative of the Parkers said the bandits, six in number, were wiped out.

### CAVALRYMEN ARE DRILLING

By Associated Press Dispatch. Columbus, N. M., June 28.—Large forces of Carranza cavalry are being concentrated a short distance east of General Pershing's line of communication between Colonia Dublan and El Valle, according to a report brought here today by army motor truckmen.

The truckmen assert that the American commander is drilling his men regularly and is sparing no effort to make his force as mobile as possible.

### CENTRAL ORDERED TO MOVE

Maj. Gen. Barry Orders Immediate Movement of "Reasonably Ready" Units.

By Associated Press Dispatch. CHICAGO, JUNE 28.—ORDERS WERE ISSUED TODAY BY MAJOR GENERAL THOMAS H. BARRY, IN COMMAND OF THE CENTRAL DEPARTMENT OF UNITED STATES ARMY, FOR THE IMMEDIATE MOVEMENT TO THE BORDER OF ALL UNITS OF THE ILLINOIS, MISSOURI, KANSAS AND WISCONSIN NATIONAL GUARD WHICH ARE "REASONABLY READY."

### MEXICO SENDS PROTEST NOTE

Washington Informed of "Outrages" Perpetrated By American Troops.

Washington, June 28.—A note protesting against outrages against Mexican citizens, alleged to have been committed by an American force 3,000 strong marching from San Geronimo toward Valle, was sent to the State Department today by Eliseo Arredondo, Mexican Ambassador, on instructions from the Carranza Foreign Office.

Vigorous complaint against the alleged arrests and mistreatment of 300 civilians at La Cruz is registered in the note, with a request that the officers responsible be punished and steps taken to prevent a recurrence of such an incident.

### T. R. AND HUGHES TALK PRIVATELY

Republican Politicians Much Interested in Meeting Today.

New York, June 28.—Republican politicians looked forward with interest to the meeting between Charles E. Hughes and Theodore Roosevelt when the Republican presidential nominee and the man who, as head of the Progressive party, endorsed his candidacy, will dine together.

It was announced, however, that their meeting would be a "private and personal one" and that no statement would be forthcoming as to the subjects they might discuss.

## PEDESTRIANISM ON THE INCREASE

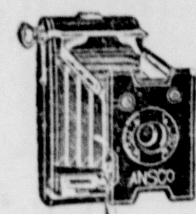

(Associated Press Cable)

Paris, June 28.—Pedestrianism is being revived in France. The women particularly are taking to walking, even though they may have ample means to indulge in motor-ing, both for the healthful exercise and the economy. The new and more commodious styles of women's skirts make walking easier, and there is a certain amount of rusticity about the new fashions that does not go well with the motor car, and it is suggested that this latter point has been an aesthetic reason for the revival of walking.

Every morning the popular alleys of the Bois de Boulogne are turned into training quarters by these new adepts of pedestrianism. The reduced number of motor cars flying around Paris and the consequent diminution of the dust nuisance on suburban roads has made walking to Saint Cloud and other delightful spots more comfortable.

## OHIO TEACHERS IN MEETING

Cedar Point, June 28.—The sixth-ninth annual convention of the Ohio Teachers' Association was opened Tuesday with indications that it would be a record-breaker for attendance. The convention will be in session four days. Last year more than 1,000 teachers registered for the convention. This year the number is expected to exceed 1,500.

At the close of the convention here many of the Ohio teachers expect to leave for New York to attend the annual meeting of the National Education Association, July 3 to 8. W. E. Kershner, of Columbus, secretary of the Ohio association will have charge of the Ohio party. A boat trip through Lake Erie and down the Hudson River is planned.

This year's program is the most elaborate ever arranged for an Ohio teachers' meet. Among the more prominent speakers are Dr. W. C. Bagley, of the University of Illinois, and John Barrett, director-general of the Pan-American Union.

A feature of the convention will be the discussion of the question: "Should Systematic Military Training Be Included in the Course of Study Required of All Boys in All Schools Above Grammar Grades and Should it Be Supported Wholly or in Part By Public Funds?" Dr. W. C. Thompson, of Columbus, president of Ohio State university, will take the affirmative side, and Dr. Herbert Welch, of Delaware, president of Ohio Wesleyan university, the negative.

Although it is said by early arrivals that the movement in behalf of a teachers pension law is more pronounced now than at any time in the past, indications are that any action by the convention will be deferred until the mid-winter session, just before the legislature assembles.

Superintendent H. V. Hotchkiss of the Akron public schools is president of the association. County Superintendent G. J. Keinath of Ottawa, Superintendent D. J. Boone, of Lorain, Supt. W. H. Angel of Denison, Dr. Alson Ellis of Ohio University, Athens; Howard G. Carter of Hamilton and John D. Harlor, of Columbus, are vice-presidents.

## THEY APPRECIATE FAYETTE'S HORSES

Fayette county horses will undoubtedly play an active part in war activities, if the present menace of trouble with Mexico looms into genuine war, and it is gratifying to know that there is no territory from which the army is more eager to secure re-mounts.

Concerning the last bunch of 35 head of horses delivered by Renick Allen at the Front Royal, Va., remount station, the eastern depot for governmental remounts, comes the echo of approval from headquarters. Sen. Downing personally visited Capt. Sturgis on last Sunday and congratulated him, as the ranking officer, upon the calibre of the Fayette Co. horses, adding that this county has the reputation of sending the best horses received at the station.

Young Allen was greatly impressed with the effervescing spirit of the southern boys, bubbling over with war fever. He reached Front Royal on the day when the first orders were issued to the guards and the temper of the people reached the high tide of enthusiasm—all personal risk eliminated in zeal for the nation's honor.

The nearer the location to the capitol the more realization there is of the stress of present conditions.

## AFTER THE WAR TRADE PROTECTION

(By Associated Press Cable)

London, June 28.—The latest plan for "after the war" trade protection was outlined at a recent meeting of one of the principal manufacturing concerns in the Midlands. British manufacturing interests are planning an Association which will not organize until one hundred responsible firms join and agree to deposit \$5,000 each. Many important industrial firms have already put their names down for membership and their aggregate capital totals \$450,000,000.

The organization which will probably be called the "Industrial Association," plans to mobilize commerce, exchange views, consult and decide on a policy necessary to cope with "after war" trade conditions. The chairman of this particular meeting said that the country generally was caught napping in the matter of national and imperial security and safety and they were paying a pretty price for folly and refusal to face facts. It was therefore up to the trade of the country to be ready and prepared for the new world and new conditions which will have to be faced.

The new association will welcome views from all sections of trade and hopes that all existing and kindred associations will be connected more or less with it in intimate relationship, while it may also be the means of bringing together into partnership, for mutual good, capital and labor.

## HIGH PRICES IN BELGIUM

(Associated Press Cable)

The Hague, Netherlands, June 28.—Notwithstanding the good offices of the Belgian Relief Committee the prices of articles of popular necessity in Belgium have risen to unheard-of heights. A list of some of these articles shows an average rise of 450 per cent, as compared with 1914. According to Belgian advices, a packet of household soap that formerly cost 11 cents, now costs one dollar; coffee is \$1.50 a kilogram, as against 40c; sugar forty-two cents, against fourteen; bacon or ham \$1.20 as against 48 cents; tobacco 80 cents, against 30; butter, \$1.40, against 64 cents; prime beef \$1.60, against 30 cents; and cheese \$1.28, against 48 cents.

While regulations and maximum prices have been proclaimed by the authorities, it is declared that if one seeks any of the things thus officially regulated at the lawful price, the customer is told that it is "sold out"—and the sale is made only secretly at any price the dealer can command.

## COAL SYNDICATE

(Associated Press Cable)

London, June 28.—German, Austrian and Hungarian coal owners are forming a syndicate to supply coal to the Balkans, hitherto largely furnished by Great Britain. The capital is \$1,000,000. Steps will be taken to develop the Danube river traffic for carrying the coal. The Balkan States have been getting some 2,500,000 tons of coal every year from England.

## MOUND BUILDERS

By Associated Press Dispatch. Columbus, O., June 28.—Relics which will throw more light on the lives and customs of the mound-builders, will be sought in Southern Ohio this summer by a party from Ohio State University, headed by Curator W. C. Mills of the Archeo-

logical Museum at the university. extensive excavations will be made. The party will consist of Dr. and Mrs. Mills and their daughter, a sophomore engineering student at the university. The party will leave July 1 and will be gone about two months.

"Anything that is of importance in regard to the history of these former inhabitants will be carefully preserved and the place of the excavation noted," said Mr. Mills. "Carefully prepared topographic maps will be made of the mounds, showing the exact location of the find and the character of the mounds."

## BUT DID THEY?

(By American Press)

Indianapolis, Ind., June 28.—Credit for the defeat of William Barnes as Republican national committeeman for New York was claimed for the Anti-Saloon league by William H. Anderson, superintendent of the league for New York, at the annual convention of the Anti-Saloon League of America, which is being held here. Dr. A. C. Bane, financial secretary of the Anti-Saloon League of America, spoke on "Our Country's Crime Against the Cradle." The country's greatest crime, he said, was the licensing of the liquor traffic, "which menaces the life and character of every American child and the future of the republic."

## The Quail Prosperous

From almost every section of the state come reports of the great increase in the number of quail.

In this county the number of little Bob Whites in evidence is a surprise to town folks every time they take a trip into the rural sections.

A halt by the roadside at almost any time of the day will enable the traveler to hear the cheery call of the quail in every direction.

From fields and meadows, from woods and thicket the call is sent out and but very few miles along any rural highway—main pike or country road—can be traveled without seeing some members of the numerous covies out seeing the sights.

Many of the quail have become so certain of their immunity from death or bodily harm that they barely run off the side of the road far enough to let the traveler pass by. Some of them are so independent and certain of their rights that it is necessary to actually run them off the road to prevent injuring them.

From their actions one would be almost warranted in believing that some of the more powerful leaders of the Bob White colonies had secured the enactment of the special legislation themselves and the whole feathered family was growing fat, under the property fostered by protective legislation.

Well, any way, we believe in that kind of special legislation.

## "Outside" Police Officers

Mayor Oster has asked council to give him the authority to appoint policemen whom he will call, for want of a more appropriate name, "outside police." At the Monday night session the city council failed to grant the request by a suspension of the rules.

It is Mayor Oster's idea that these men be located in the outlying districts and receive no salary from the city—sort of neighborhood officers so to speak. There identity is to be kept secret from the general public.

The main consideration moving to these police would be the preservation of order in the neighborhood in which they live.

The good results would be largely the outcome of the deterring influence, the known presence of the eye of the law would have on evilly inclined persons.

Known police officers can be located and watched and the evil doer proceed in safety. The unknown officer they can't keep tab on.

The best policeman in the great city of Chicago never made an arrest in twenty-two years of service, but his presence in the bad district compelled evil doers to flee.

There is no disposition, at this time, to complain about council's action. The legislative body, we must presume, has a good reason for its action.

But the idea, as Mayor Oster suggests it, looks like a good one. It seems, in every way, worthy of a trial.

We have three police officers on the city force, all we have money to pay, and it's impossible for them to be "wandering" around in the outskirts of the city keeping those who would do evil, so uneasy and disturbed that they are unable to consummate their plans—so uneasy in fact that they will soon leave the community or abandon their plans, something the "outside" police proposal promises at least to accomplish.

The plan is worthy of the consideration of the solicitor and council.

If there is any bar in the Ohio laws to such a plan that's one thing, but neither personal feeling nor politics should be the cause of blocking such a proposal.

## Before the World

No matter what turn the present crisis with Mexico may take, no matter what position this nation may be compelled to assume, even to the extreme of armed intervention, the world has entire confidence in the good faith of the United States.

While, at times, there has been some inclination, during the stirring times of the last two years, among a few impatient and hot tempered folks, to complain some about the purposes of the national administration and the high moral stand assumed by the federal government, yet now when a crisis has forced the nation to affirmative action the confidence of the entire world in our absolute sincerity is compensation enough even for those who were most impatient.

Our lofty ideals were perhaps in advance of a custom which apparent necessity had compelled some nations to adopt and adhere to. It remained for the people of the United States to emphasize by a course of action during a series of the most alarming crises the world ever witnessed and in the face of repeated provocations that self-control which heretofore has been largely only an accepted theory.

This nation has proven to the world that it is not bent on conquest and is in fact actuated, in whatever course it may be forced to take, solely by a desire to aid humanity.

## Poetry For Today

### Patriotism

A good poem to reread on this Fourth of July

By SIR WALTER SCOTT

BREATHES there the man with soul so dead  
Who never to himself hath said,  
This is my own, my native land:  
Whose heart hath ne'er within him burned,  
As home his footsteps he hath turned  
From wandering on a foreign strand?  
If such there breathe, go, mark him well,  
For him no minstrel raptures swell;  
High though his titles, proud his name,  
Boundless his wealth as wish can claim,  
Despite those titles, power and pelf,  
The wretch, concentred all in self,  
Living, shall forfeit fair renown  
And, doubly dying, shall go down  
To the vile dust from whence he sprung,  
Unwept, unhonored and unsung.

## LEATHER FROM THE SEA.

The Product of Shark, Sturgeon and Angel Fish Skins.

It is a curious fact that many sorts of leather are got from sea creatures, some of which are very beautiful. The skin of sharks is a beautiful burnished gray or bluish color. The surface resembles finely grained leather since it shows many tiny prickles all set one way. This property of shark skin renders it especially valuable to the manufacturer of shagreen. Since the skin is at once tough and easy to work it can be used for many purposes where decorative effects are desired.

In spite of its lumpy armor the sturgeon furnishes a valuable and attractive leather. It has been found that when the bony plates are removed the patterns remain on the skin, just as the patterns of alligator scales remain on alligator leather, a circumstance that adds greatly to the value of the product. From the sturgeons that abound on our Pacific coast and in the great lakes we get a tough leather that is used for the making of shoes to join leather belting for machinery. It is said that the lacing frequently outwears the belting itself.

There is found in Turkish waters a strikingly unattractive fish called the angel fish, classed among the littoral sharks. This fish yields an extremely high quality of green leather, much esteemed in the Ottoman dominions.—Kansas City Journal.

## HIS PROPHECY COMES TRUE.

Tree Left Standing as Lightning Rod Is Hit, Barns Untouched.

Islip, N. Y.—A bolt of lightning, the only one in a period of two hours during a thunderstorm here recently, struck and completely demolished a huge locust tree which was more than a century old, and was a well known landmark on the farm of E. F. Davis. The tree was over a hundred feet high, and there was not a branch within forty feet of the ground.

Mr. Davis said that he not long ago refused an offer of \$100 for the tree from a man who wanted the trunk for a pole. He did not sell it, he said, as his father had always argued that the tree should be left where it stood because it might some day be hit by lightning which otherwise might hit the barns close by.

New York, June 28.—Theodore Roosevelt accepted Mr. Hughes' invitation to dine with the presidential nominee at the Astor tonight. This announcement aroused great interest in political circles. ## CROSSING CONTINENT, HEN SITS WILLINGLY

Three Chicks Extricated When Crate Arrives at Albany, N. Y.—Other Eggs Show Signs.

Albany, N. Y.—A hen which continued to sit while traveling across the continent is the possession of J. W. Wolfmont of this city.

The hen was sitting with motherly devotion upon a nest of eggs which a friend of Mr. Wolfmont placed in a crate in Riverside, Cal., and shipped through a transcontinental express company to this city. She continued to sit, disturbed not in the least by the transcontinental trip. Her protection was a conspicuous placard on the box reading: "Sitting Hen—Eggs Expected to Hatch—Handle With Care." The warning was punctiliously observed by express employees.

When the crate arrived at its destination three downy chicks were extricated from the shells and other eggs gave forth evidences of hatching.

## STEALS LOCOMOTIVE TO GO TO DANCE, THEN ESCAPES

Montana Youth Sends Engine Running Wild After Reaching Destination.

Bozeman, Mont.—"By George, I'm going to that dance at Paxton's somehow!" an unknown young man declared here when informed there would be no trains going east for some time. He walked over to a lone locomotive, entered the cab and started east, breaking through a closed switch and going out on the main line.

Engineer McVicker in a locomotive was traveling toward this city when he noticed the block system registered danger. He saw the smoke of an engine approaching and stopped his engine. His fireman jumped, and McVicker reversed his engine. Fireman Boehling caught the approaching engine, climbed into the cab, found it "driverless" and brought it to a stop a short distance from McVicker's engine. No trace of the locomotive thief has been found. He evidently jumped when he saw the other engine approaching.

## TEMPLE OF DISHONESTY.

It Will Have the Form of House, and All the Parts Are Stolen.

Los Angeles.—Somebody is building a temple of dishonesty in the form of a house, of which all the component parts are stolen.

Now the thieves are stealing the doors. The last case of such thievery was reported to the police recently by Mrs. W. H. Hill of 1414 Fedora street. When Mrs. Hill left home the other morning the back door was locked safely on its hinges. When she returned two hours later the door was gone. Other house parts have been stolen in other neighborhoods recently. The police are wondering what the thieves will do when they get around to making a basement and cement walk for their homes.

## FOUND \$60 IN OLD CLOTHES.

Owner Gave Salvation Army Captain Part of It as Reward.

Portland, Ore.—They were sorting old clothes at the Salvation Army Industrial home the other day, with never a thought of hidden riches in the frayed and spotted garments that had been given to charity. Yet the task was enlivened when a handbag dropped from a bundle of clothes before the workers. They opened it to discover six ten-dollar bills.

The woman who had contributed the bundle was at once sought and located. To Captain Andrews, who returned the money, she expressed her gratitude by presenting one of the bills to the Salvation Army.

## PLOW BY NIGHT ON FARM.

Tractor Equipped With Searchlight Works Continuously For Two Days.

Lansdale, Pa.—Plowing at night by artificial light is an innovation on the farm of the Lansdale Mushroom company at Lansdale. The late spring made it necessary to devise some means to catch up in the work, and the plowing by night idea was hit upon.

The plowing was done by a tractor engine equipped with an acetylene gas tank and powerful searchlight. Three shifts worked continuously for forty-eight hours. Ten acres of land were plowed in twenty-four hours.

Charleston, W. Va.—D. W. Hunt, aged fifty-four years, and Lillian Lyda Young, aged sixteen years, secured a license and were married here.

It is declared that Hunt, a neighbor of the Young family, has loved the girl since infancy and only awaited the time when she was old enough to marry. Her parents gave their consent to the marriage, it being understood almost since her birth that Hunt was to have her for his bride.

## GOOD NERVES SHOWN IN WAR.

Medical Journal Comments on Absence of Epidemics.

New York.—"The present war," the New York Medical Journal says, "has brought out many surprises, one of which has been the absence, or comparative absence, of epidemics and the remarkably good health of the armies engaged."

"It is also a matter for surprise that nervous diseases have not been engendered and developed on a large scale by the appalling conditions which exist in this war."

## New Standards of Excellence for Investments

New standards of excellence for measuring the true value of investment securities can be set up and maintained permanently only as fast as the investing public learns exactly what to demand in the way of protection—and how to get it.

The educational value of our advertising and sales campaigns during the past 12 years has been enormous—because we have taught thousands of people to demand strong margins of protection behind their investments, both in property values and average net profits.

To this extent our activity has tended to strengthen the whole investment situation and to improve the quality of all the securities that are offered in the territory we serve.

It is known far and wide that no one has ever lost a dollar of principal or income on preferred stocks purchased from us, and for that reason thousands of investors have learned to demand the kind of safeguards that characterize our current offerings.

For example, each \$100 share of the 7% cumulative preferred stock of The Central Steel Company of Massillon has more than \$200 of actual property value behind it. The net profits are several times the amount necessary to pay preferred dividends. These are strong margins of protection for both principal and income.

If you have \$100 or more to invest, or are interested, as a responsible person, in studying the principles of investment, send us your name and address and we will send complete details about the preferred stocks we market. Do so at once, before forgetting.

# WHOLE COUNTY ENTHUSIASTIC OVER BIG 4TH

Small Towns and Rural Sections Signify Intentions of Participating in Big Parade.

The big July Fourth celebration to be held in Washington is attracting much interest throughout the county.

The Mayors of Bloomingburg, Milledgeville and New Holland have expressed their intention of appearing in the big patriotic parade.

The Fayette County Fish and Game Protective Association guarantee five hundred marchers in the parade.

Six balloons, bearing tickets to the races, were sent up at 7:30 Tuesday night. The breeze being good, they were well on their way toward Staunton when last seen. More balloons will be sent up every night from now until the Fourth.

Members of the Dutch Treat Club, who have the affair in charge, are working hard every spare minute to make the celebration a success in every detail.

Mayor Creath of Bloomingburg, Mayor Zellars of New Holland and Mayor Ferguson of Milledgeville will march in patriotic parade on the Fourth.

Guards will march if they are still in the city.

A representative of the J. O. U. A. M. assured the committee that the local order accompanied by other orders in the county would march in the parade.

## POSTPONED PICNIC TO BE HELD THURSDAY

The Second Annual Picnic of the Fayette County Fish and Game Protective Association, which was to have been held last Wednesday, will be held Thursday, June 29th, rain or shine.

## ENGINE DEAD TRAIN DELAYED

The west bound train on the Pennsylvania Lines that is due to leave this city at 3:50 p. m., did not pull into the station until 5:55 p. m. Tuesday, having been held up three-quarters of a mile east of the city by a broken valve on the engine.

A new engine had to be sent from Lancaster before the train could be moved.

## SUDDEN DEATH MRS. SARAH FARMER

The eternal summons came with utter unexpectedness to Mrs. Sarah E. Farmer, at her home on Washington Avenue, Tuesday night at 10 o'clock, following a sudden attack of the heart.

Mrs. Farmer's death brought overwhelming sorrow to her two devoted daughters, Misses Kate and Lucy, who have the sympathy of a large circle of friends in their great loss.

Although seemingly a far younger woman Mrs. Farmer had reached the advanced age of 87. She was a woman of unusually strong and lovable character and her friends were many and close.

Only a few months ago Mrs. Farmer and daughters returned to this city, their home a number of years ago, from Greenfield, where their home had been made for some time and where Mrs. Farmer's death will be learned with great regret.

A short service will be held at the residence on Washington Ave., Friday afternoon, the remains being taken at 1:00 p. m. to Greenfield, where funeral services will be held Friday afternoon at 2:30 o'clock. Interment in Greenfield cemetery.

## ROBBERY OF EXCURSIONISTS BELIEVED PLAN

Suspect Who Was Caught Riding Coaches on the Big Dahl-Campbell Excursion Is Nabbed at Chillicothe.

### DETECTIVES INVESTIGATE.

Was Lewis White planning to rob a Dahl-Campbell excursion train? This is what B. & O. officers would like to know. As yet no reports of robberies on any of the six excursion trains have reached this city but the case of White is considered suspicious.

Captain W. S. Manss of the Ohio division B. & O. police left Lancaster on Monday afternoon with grocery tourist special starting from that city. Leaving Greenfield, he saw a man running over the top of the train. Thinking the man was a brakeman he paid little attention to the matter until reaching Lyndon.

There he saw the man sitting on a coach at the front of the train. Thinking he was a train-rider Manss decided to capture him. Manss watched the man until Roxabel was reached and then started after him. He saw Manss coming and disappeared on the other side of the train.

It was later learned that the man had a box of jewelry and that he had tried to sell a B. & O. fireman named Gilbert a ring. Reports that the man carried a rope, presumably to let himself down from the coach top to rob the occupants were not verified.

Captain Manss notified Patrolman Nehring in this city of the case and the latter immediately left for Roxabel. Reports were later received at division headquarters that the man had been caught by colored section men and had been turned over to Deputy Sheriff Strawder McNeal.

Patrolman Nehring brought the man to this city and he was arraigned on a charge of train riding in police court, this morning. He gave his name as Lewis White, 19, Augusta, Ga. He was fined \$10 and costs and will be held pending investigation.

When searched at headquarters an empty jewel case was found on White. It is believed that he has hidden the contents near Roxabel. A search will be made there. It was reported that White had offered a diamond ring for sale to a man near Roxabel.

White, it is said, was arrested here about a year ago for intoxication and disorderly conduct. He is said to have a sister residing here. —Chillicothe News-Advertiser.

## FOREIGN WRIT IS RECEIVED

A foreign execution was received by Sheriff Jones Wednesday issued by the Clerk of the Common Pleas Court of Clinton county, directing him to levy the same on all property of The Clinton Garage Company, or J. W. Fisher, found in this county. The judgment amounting to \$271.41, is in favor of Lucinda Gordon.

J. W. Fisher, one of the defendants, owns land in this county.

## DRUNKS FINED

Nathaniel Jones of this city and a man who gave the name of Gillmore, from Xenia, were picked up in Avondale by Chief Moore about 5 o'clock Tuesday afternoon.

They had both participated a little too freely in certain life-giving stimulants and were well "in the clutches of King Alcohol" when reported by residents of that section. They were escorted to the jail and appeared before Mayor Oster Wednesday morning where they were each fined \$5.00 and costs.

Both men declared themselves to be destitute of funds and Mayor Oster gave them until Monday morning at 9:00 o'clock to settle in full or stand the consequences.

## AGE LIMIT IS EXTENDED

War Department Makes New Ruling Which Will Aid Recruiting.

Latest general order from Col. Barger makes it possible to muster enlisted men between the ages of 18 and 26 without parental consent, and to muster men between the ages of 16 and 18 with the consent of parents, and age limit of 35 years is revoked. This latest order will probably stimulate recruiting in the local company.

Following is General Order No 5 as received late Tuesday afternoon by Captain Hardway:

"Paragraph 1.—Telegraphic instructions from the War Department to the Senior Mustering Officer directs that officers mustered be between the ages of 21 and 64; enlisted men may be mustered between the ages of 16 and 18 with the consent of parents; enlisted men may be mustered between the ages of 18 and 21 without parental consent; enlisted men may be mustered up to 45 years of age without regard to previous enlistment, the age limit of 35 years is revoked.

"Paragraph 2.—All ammunition in broken packages will be brought to camp in sealed packages.

"By order of  
"COL. BARGER."

## POINTED POSTER WARNS WARY

The official artist and sign painter of Company M has been busy. A number of very suggestive placards appeared on the court house grounds about the recruiting station Wednesday morning. The most conspicuous one was pinned to the top of the recruiting officer's tent and painted in red letters, "Danger—Recruiting Station." Just beneath it was another reading, "No Cowards Wanted."

The one causing the most comment was tacked to the tree standing in the corner between the Court street pavement and the walk leading to the steps of the court house. It read thus: "If You Are From Washington, That Lets You Out."

## "TELEPHONE" CURES THIRST.

French Soldier Confesses, and Penalty Is Cut In Two.

Paris.—A court martial at the front. The presiding officer, speaking with a distinctly kindly intonation to the accused:

"Now, now, admit that you telephoned."

"No, my colonel, I did not telephone."

"If you confess you will only have half the penalty."

"Well, then, yes, my colonel, I did telephone."

All the court laughed and a nominal sentence was pronounced.

The civilian should not imagine that the use of a telephone is a crime in the French army. To "telephone" in army slang is to bore a little hole in a full barrel of wine, to fit a rubber tube thereto and apply the mouth to the other end.

## VALUES HIS HOUNDS.

Hiawatha (Kan.) Resident Places Their Worth on Tax Rolls at \$2,000.

Hiawatha, Kan.—On the assessment rolls of Brown county the name of F. E. Kelley, who lives on the Kickapoo Indian reservation, is down for \$3,510 worth of property.

Mr. Kelley's hogs, cattle and implements are valued at \$1,510, and twenty dogs are valued at \$2,000. Kelley insisted on valuing the dogs at \$100 each.

They are hounds. County Clerk John Mathewson thought there was a mistake in entering the assessment and took the matter up with Kelley. The owner of the twenty dogs insisted on standing pat on his returns, and in addition to paying personal tax on the twenty hounds he will also have to pay the regular dog tax.

## COURT BAN ON "SPOONING."

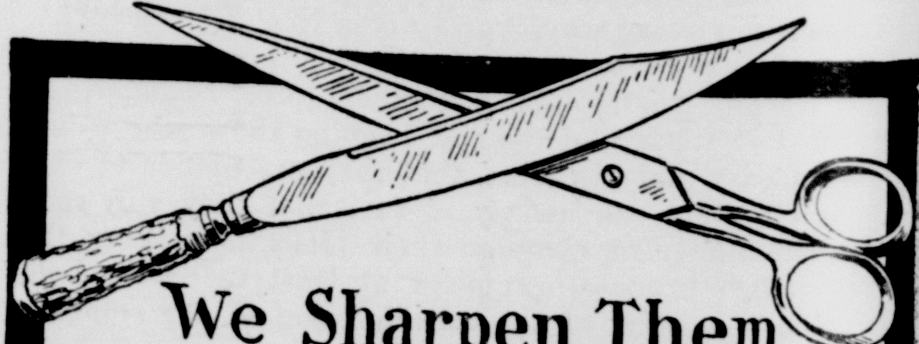

All Right Only When Public Can't See.

Says New Rochelle (N. Y.) Judge.

New Rochelle, N. Y.—"Spoonng" in public places in New Rochelle even after dark, if others can see it, must stop. This was the edict of Acting City Judge Bizez as he fined Peter Aryell of River street \$15 for loitering in Stonelea park. Miss Julia Gleason of Echo manor, the girl who was with Aryell, was sent home and advised to be more circumspect.

"I don't care if you spoon in Hudson park or Lover's lane or anywhere where people cannot see you, but you must not spoon right out in public," said Judge Bizez.

The residents of Stonelea park have complained to the police that the park is a favorite place for "spooning" and that youths and maidens of fifteen years gather there. Robert Lesser, manager of Hudson park, who placed "spooning benches" near the shore in the park, may plant a hedge behind the benches to protect the young lovers as a result of Judge Bizez's ruling.

# CONSTRUCTION OF WILL ASKED

Trustees of the M. J. Williams Estate Want Court to Indicate Line of Distribution Between Rival Claimants

The case of A. R. Creamer and C. P. Ballard, Trustees of the last will and Testament of Marshal J. Williams, deceased, against Laura K. Williams and others was heard by Judge Carpenter of the Common Pleas Court on Tuesday of this week. The case is one of especial interest because of the fact that Judge Williams, the author of the will was for many years a member of the Supreme Court of Ohio and recognized as one of the greatest Jurists in the middle West.

The suit was brought by the Trustees for the purpose of having the Court instruct them as to the manner of making distribution of the estate of Judge Williams. Because of the language used in making certain devises and bequests the Trustees are in doubt as to how to proceed and by this suit seek to have the court construe the will and instruct them as to their duties.

Under the will of Judge Williams the whole estate is given to Mrs. Williams, the widow during her life she to collect all rents and incomes etc.

At the death of the widow, the will provides that all property shall be converted into a fund by trustees, named, and the trustees to distribute the funds according to item 6 of the will.

Item 6 provides that the entire fund shall be divided into 8 equal shares. One share is given to each one of the testator's sisters living at that time. One share is given to the niece of Judge and Mrs. Williams, Minnie Slye and the remaining shares are given per capita to the testator's nieces and nephews.

The trustees A. R. Creamer and C. P. Ballard ask instructions as to whether the grand nieces and nephews whose parents are dead are entitled to share in the distribution as they claim. The trustees also want a ruling of the court as to whether the rents and profits of the estate unconsumed by the widow during her life time are a part of the estate of Judge Williams or a part of the estate of Mrs. Williams as claimed by the executor of her estate, John Logan.

The attorneys engaged, pro and con are Creamer, Creamer and Thompson, W. B. Rogers, John Logan of this city and D. W. Murphy of Cincinnati.

The entire estate now aggregates about \$90,000 and the questions arising on distribution are novel and intricate.

While the hearing was concluded Tuesday evening Judge Carpenter has not yet announced his conclusion.

MAY REACH 110 THIS EVENING

Company M is recruited up to a fighting strength of one hundred and four privates and three officers at the present time. The work of recruiting has moved along more swiftly than usual today, probably due to the increase in the age limit according to the orders received from Col. Barger Tuesday evening, or to a new awakening among the boys in the district to their duty to the country.

Company M stands first among the four companies in the Battalion and sixth in the Regiment, in fighting strength.

Cars to convey troops have been standing on the switch at the B. & O. since Monday, but Captain Hardway does not expect orders to move before Friday or Saturday of this week.

MAN 43 YEARS OLD WANTS TO ENLIST

Granville S. Moore of Highland county presented himself at headquarters for enlistment Tuesday evening. Mr. Moore said he was 43 years old, which statement, judging from his looks, no one disputed. He has been employed as a cook for thrashing crews, and has seen service in the National Guard of the state.

It was with reluctance on the part of the company that this patriotic man had to be rejected upon physical examination.

MAYOR OSTER WILL RIDE IN PARADE

Mayor Oster, in company with the chief executives of Bloomingburg, New Holland, Milledgeville and Jeffersonville, will ride at the head of the big patriotic parade to be given in the city on the morning of July Fourth.

Mayor Oster declined the invitation of the committee until he was assured that he would not be compelled to ride alone.

# BURIAL SERVICE MRS. AARON HYER

Rev. J. F. Henkle conducted the funeral services of Mrs. Aaron Hyer at the home near Jasper Wednesday morning at ten o'clock.

Mrs. Hyer was one of the old residents of the county and there were many of the friends of earlier days who gathered with relatives and friends of the younger generation in farewell tribute of regard.

The minister followed the memoir with an excellent talk and appreciative reminiscences.

Mrs. Ed Cline and Mrs. Bruce Mark sang sweetly the two favorite hymns of the deceased, "Nearer My God to Thee," and "Somewhere."

The burial was made in the Washington cemetery; the nephews acted as pallbearers.

# BUSINESS MEN FAVOR MEMBERS OF COMPANY

The various business men of the city have very generously offered their services for the comfort and convenience of members of the local company, during their past week of mobilization.

The Rothrock Laundry has agreed to wash the towels of every member as long as they are in the city, and Mr. Frank Bending has very liberally presented the company with a carton of ground smoking tobacco.

The members of the company are all very grateful for all such favors shown them by the public spirited citizens of our city.

# ONE ABSENTEE UNDER ARREST AT SPRINGFIELD

Clever Detective Work By Sheriff Jones Is Successful—Estel Stuckey to Be Brought Here This Evening.

Estel Stuckey, one of the members of Company M who has been absent without leave since the call for mobilization, was issued eight days ago, was located in Springfield Tuesday by some clever detective work by Sheriff Jones.

A messenger was sent to Springfield to bring Stuckey to this city but when he refused to accompany the messenger, Sheriff Jones gave the address of the man to the chief of police in Springfield.

He was forthwith arrested and lodged in the Clark county jail.

A guard was sent to Springfield Wednesday afternoon to bring the prisoner to this city on the evening train.

# MEXICANS ANNOUNCE OBJECTION

Embargo on Foodstuffs Pro-  
duces a Protest.

## ARREDONDO WRITES NOTES

Protests Against Ban on Shipments of  
Merchandise Into Mexico and De-  
mands Release of Mexicans Arrested  
on Border by Civilian Authorities.  
Carranza Restricting Exports Into  
the United States.

Washington, June 28.—Two com-  
munications were addressed to the  
state department by Eliseo Arredon-  
do, the Mexican ambassador, one de-  
manding release of certain Mexican  
civilians arrested on the border by  
civilian authorities and the other re-  
questing relief from an embargo  
placed by American customs authori-  
ties on the shipment of foodstuffs and  
other merchandise into Mexico.

Concerning the Mexican civilians  
on this side of the border the am-  
bassador advises the state department  
that the Mexican consul at San Fran-  
cisco notified him that at Redding,  
Cal., one group of 15 Mexicans was  
arrested last week and another of 14  
on June 25 by the local authorities of  
that town without cause. The am-  
bassador further states, in addressing the  
department, that J. M. Gonzales,  
agent of the treasury of the state of  
Sonora, Mexico, was arrested without  
cause at Tucson, Ariz.

Regarding the action of the cus-  
toms officials in holding up shipments,  
the second communication to the de-  
partment observes that despite the  
fact that the embassy has received  
from the American government no  
formal notice of a general embargo,  
Mexican consular officers in the United  
States have reported the hold up of  
all kinds of merchandise destined for  
Mexico.

The note expresses confidence that  
such action by the local authorities  
is not the result of any orders from  
Washington, and that the customs of-  
ficials were acting entirely on their  
own responsibility, due to conditions  
now obtaining with respect to the sit-  
uation existing between the two gov-  
ernments. In requesting that the ship-  
ments be released the communication  
calls attention to the fact that the  
Mexican government is now restrict-  
ing exports into the United States.  
If such practice continues, the am-  
bassador advises Mr. Lansing, it will  
naturally tend to aggravate the sit-  
uation.

Department officials who were seen  
yesterday to have no knowledge of the  
arrests referred to, but seemed to  
regard it as likely that the request  
for their release was made in conse-  
quence of the American demands.

The decision to hold up shipments  
of foodstuffs and other merchandise,  
as well as shipments of arms and am-  
munition, though informal, was de-  
termined upon pending the develop-  
ment of the next move on Carranza's  
part.

## HUNTS COMFORT

(By American Press)

Mexico City, June 28.—General Car-  
ranza has sent a message to Amba-  
sador Arredondo, Mexican representa-  
tive at Washington, urging him to get  
in touch with the diplomatic represen-  
tatives of the Latin-American repub-  
lics, who offered their assistance in  
mediating the present situation, and to  
urge them not to spare their efforts to  
preserve peace. Carranza sent to  
them recently the following message:

"The American government has or-  
dered a sudden concentration of its  
army along our frontier, with mani-  
fest hostility, trying to involve us in  
a war which neither the Mexican gov-  
ernment nor people have provoked.  
War seems inevitable, although un-  
just and ill-matched, for both the gov-  
ernment and people of Mexico are de-  
termined to defend their sovereignty  
and absolute independence, even at  
the cost of the blood of their sons  
and the destruction of their riches.

"The government believes, and thus  
faithfully affirms, that the conduct  
of the American government does not  
harmonize with its protestations of  
friendship for Latin-American repub-  
lics, and that its unjustifiable pro-  
ceedings with Mexico affect other sis-  
ter republics and tend to break the  
bonds which, by a community of  
ideals, origin and interests, should  
and do unite them in close solidarity  
now and hereafter."

Some of the republics to which this  
note was sent have replied, deploring  
the situation and offering friendly  
mediation.

## WILL REFUSE THE RELEASE OF TROOPERS

Carranza Said to Have Rejected  
American Demand.

Washington, June 28.—Central and  
South American diplomats heard that  
General Carranza has rejected the  
demands of the United States for the  
immediate and unconditional release  
of the American troopers held at Chi-  
huahua.

The feeling in these Latin-American  
quarters was decidedly pessimistic.  
South American diplomats were prac-  
tically one in declaring that there is  
no prospect of settling the dispute  
through arbitration if Carranza re-  
fuses to release the prisoners, and for  
that reason all idea of renewing the  
mediatory offers has been abandoned.  
No confirmation of these reports was  
obtainable in administration circles.  
Officials are still waiting with tense  
interest for the formal reply.

In administration quarters the view  
was expressed that if Carranza re-  
jects the demand or fails to answer  
it within the next forty-eight hours  
the president will go before congress  
and ask authority to take what steps  
he may deem proper for the use of  
the armed force of the country, in-  
cluding the national guard, in rescu-  
ing the troopers and further safe-  
guarding the American border. It  
was learned, however, that the presi-  
dent within the last twenty-four hours  
has informed intimate advisers that,  
regardless of what effect it might  
have on his political fortunes, he is  
determined to exhaust every extreme  
of patience to avert war between the  
United States and Mexico.

The grand maxim nowadays is "to  
work, always to work and still to  
work."—Leon Gambetta.

# ITALIANS MAINTAIN OFFENSIVE

Recapture Towns as the  
Austrians Fall Back.

## FRENCH ANNOUNCE GAINS

Claim Recovery of Territory Lost Fe-  
cently in the Thiaumont Sector.  
Germans Assailing Russian Lines  
Southwest of Kolki—Activity Noted  
On the Northern Part of Western  
Front—Day's Operations.

London, June 28.—Rome reports the  
recapture by the Italians of Arsieror  
and Posina, in the sector between the  
Adige and the Setto Commune pla-  
teau. Both places were taken by the  
Austrians in their recent rush toward  
the Venetian plain, shortly before  
their advance was checked by the  
necessity to withdraw troops from the  
eastern front.

Activity on the northern part of the  
western front, the part occupied by  
the British and the left wing of the  
French forces, is reported by the Ger-  
man war office.

No considerable infantry attacks  
have yet been announced by either  
side on this front and even the usual  
heavy bombardment preceding such an  
attack is so far lacking.

On the Verdun front the French  
made further gains in the Thiaumont  
sector, and an attack by the Germans  
on the part of Fleury still occupied  
by the French was repulsed. The Ger-  
man official statement says that the  
French attacks in the Thiaumont-Fort  
Vaux region were ineffective.

The bombardment in the Verdun  
region reached a greater intensity in  
the sector of Elx, south of Damloup,  
at the foot of the heights of the  
Meuse.

The most important action on the  
eastern front took place southwest of  
Sokol, on the Styr, southwest of Kol-  
ki, in the sector where the Germans  
have concentrated the bulk of their  
forces to fight their way to Kovel, and  
if possible to drive the Russians out  
of Volhynia. Berlin announced offi-  
cially that Russian lines in this re-  
gion were stormed, the Germans tak-  
ing several hundred prisoners. Rus-  
sian counter attacks failed.

Both the Austrian and Russian war  
office statements indicate that the bat-  
tle on the Kolki-Sokol front over-  
shadowed in violence and importance  
all other operations in the east at  
present.

## AMERICANS LEAVING

Washington, June 28.—It is estimat-

the last ten days 4,000 Americans

1,000, of which 200 are in Mexico City  
and the rest at Tampico and Vera  
Cruz. All Americans at Ciudad Car-

New Orleans. A report from Fron-

refused positively to leave.

# THE STATE PITILESS

(By American Press)

Waukegan, Ill., June 28.—Under a  
merciless hammering of the prosecu-  
tion, Will H. Orpet weakened on the  
witness stand and admitted that his  
previous statements—that his inten-  
tions towards Marian Lambert had  
nothing improper in view—were un-  
true. Time and again State's Attor-  
ney Joslin, using the university man's  
own letters, pinned him down and  
forced him to admit that the dead girl  
had been the victim of numberless  
coarse and passionate declarations and  
threats in the love missives, and then  
the prosecutor, following up his ad-  
vantage, sought to have Orpet im-  
peached. The court withheld its de-  
cision. Orpet in his testimony blamed  
the dead girl, saying in effect that  
none of his advances were repelled.

Perhaps the chief point scored by  
the prosecution was the fact that Or-  
pet had failed to mention the bottle  
of molasses and water in his careful  
enumeration of the things in his  
room. On direct examination he had  
testified that he had carefully filled  
the bottle that night to take with him  
and had given a minute description of  
how he had done it.

London, June 28.—The air is  
charged with rumors of a serious cab-  
inet crisis over the Irish home rule  
compromise. The fact that there were  
two prolonged cabinet councils, in ad-  
dition to party meetings, seemed to  
confirm this view. The Marquis of  
Lansdowne, minister without port-  
folio, and Walter Hume Long, presi-  
dent of the local government board,  
also reported to have resigned, but  
that their resignations had not been  
accepted.

# ORDER TO HELP THE RECRUITS

Boys Young as Sixteen Will Be Accepted.

## AGE LIMITATIONS WIDENED

Men as High as Forty-five Years of Age Also Eligible, Under Instructions From Washington and Relayed to Regimental Commanders by Adjutant General Hough—National Guard About to Move.

Columbus, June 28.—Mobilization was deferred from today to tomorrow morning because quartermaster supplies have not been received from federal arsenals. Soldiers are not wanted at the mobilization camp until they can be supplied with adequate blankets for slumber and clothes, said Adjutant General Hough.

Postponement of the tentative date set for mobilization was decided at a conference between General Hough, Quartermaster General Duffy, Brigadier Generals McMaken and Speaks, Chief Federal Mustering Officer Mearns and Assistant Adjutant General Bryant.

The mobilization camp is ready to accommodate at least one regiment. It is said, and from now on is expected to progress rapidly enough to accommodate two additional regiments each successive day. Not more than two regiments a day will be called at any time, according to present plans. The Eighth infantry, Colonel Edward Vollrath, Bucyrus, commanding, still is slated for first call.

Orders to accept boys of 16, with parents' consent, and men as high as forty-five years of age, went out to all regimental and battalion officers from Adjutant General Hough upon receipt of such instructions from the war department at Washington. As a consequence Ohio national guard organizations are expected to jump quickly to war strength.

Lengthening the years of eligibility for service in the national guard was welcomed by officers. The latter have been complaining about many parents being unwilling to consent to sons enlisting. Recruits now can enlist without parents' consent as young as eighteen years, whereas formerly consent was necessary up to the age of twenty-one. Under the new rules, the consent requirement still obtains between the ages of sixteen and eighteen. The age limit for officers are twenty-one and sixty-four. Widening of age limitations was taken here to indicate general difficulty in recruiting and a critical need for immediate enlistments.

# 'TIS RUMORED

American Relief Column Said to Have Avenged Carrizal.

El Paso, Tex., June 28.—Carrizal has been avenged, at least in the number of prisoners taken, if reports brought here from the Pershing base are true. Americans who left Colo-

nia Dublin brought the report that as they left the camp trucks were arriving with Mexican prisoners. One man said he counted forty prisoners, all Carranza soldiers. He said the escort in charge of the trucks reported that one of the American columns sent to the relief of Captain Boyd's force, ambushed at Carrizal, had encountered a force of Carranzistas on the Santa Maria river and had killed a large number and made many others prisoners.

Major John M. Jenkins was in command of the expedition sent to the relief of the Tenth cavalry victims of the Carrizal fight, but it is not known if his troops or another command of American forces engaged the Mexicans.

Two more of the American commands at Carrizal were accounted for when two negro soldiers of the Tenth cavalry were brought to Juarez from Guzman. They are now being held as prisoners in the old federal jail in Juarez in charge of the militia.

# REPORTS SHOW MEXICANS BUSY

(By American Press)

Washington, June 28.—Confidential reports to the state department indicate that Carranzista forces, taking advantage of the military delays in this country, are concentrating large bodies of seasoned troops in the vicinity of Chihuahua, with the apparent intention of preparing for hostilities. This being the case, officials here do not anticipate a backdown by Carranza from his orders to the Mexican commanders not to permit the Pershing forces to move any further east, south or west.

If forced to take aggressive steps for the rescue of the American prisoners held at Chihuahua, the president is said to have determined he will do nothing more than enlarge the punitive force in Mexico, order Funston to effect the release of the troops and then fall back for the defense of the border.

# WILLCOX LANDS AS CHAIRMAN

Will Manage Hughes' Presidential Campaign.

New York, June 28.—William R. Willcox, former postmaster of New York and ex-chairman of the public service commission, was selected chairman of the Republican national committee and will manage Charles E. Hughes' presidential campaign.

The announcement was made by Mr. Hughes at the Hotel Astor, after he had held a conference, with members of the so-called "steering committee" of the Republican convention. Mr. Hughes declined to discuss the appointment, but intimated that the selection of Mr. Willcox as national chairman was a personal one, and due to his confidence in the new chairman. The new chairman is a close personal friend of Mr. Hughes, who, when he was governor of New York appointed him to the chairmanship of the state public utilities commission.

Although Mr. Willcox has been comparatively active in Republican politics, he has never figured prominently as a member of the so-called organization crowd. He has belonged to the Hughes group of Republicans in New York. He is an attorney with offices here and is a member of the Union League and New York Yacht clubs. He was born at Smyrna, N. Y., and is fifty-three years old.

# ANOTHER RAID

(By American Press)

El Paso, Tex., June 28.—Excitement here over the Mexican controversy was increased with the receipt of news of a bandit raid across the border near Hachita, N. M., resulting in the murder of William Parker, an American ranchman, and his wife. Military authorities doubted that the marauders would be overtaken before they crossed into Mexico, pointing out that the ranch is only four miles from the Mexican line.

American cavalry has started in pursuit of the murderers of the Parker couple, and if necessary the pursuers will cross the border. At the time of the murder the bandits ran off approximately twenty-five horses, which military officials say will assist them in finding the trail. The Parker ranch was visited several days ago by Mexican bandits and a number of horses and cattle run off.

# NOTED LEADER OF BIG BAND

Passafiume, the conductor of the Royal Italian Band, with the Metropolitan Shows, in the city this week, has had a very interesting career.

Born of a family of musicians in Italy, he came to the United States eighteen years ago in order that he might complete his studies in the musical circle of New York.

Since his coming to this country he has spent most of his life in New York, where he gained considerable recognition among the artists and musical leaders. He was at one time director of a sixty-piece concert band and toured the east and south.

At the present time he controls the Riverside Park Band of 25 pieces, playing in Ashville, North Carolina. He spends his winters there as leader. He has selected ten of his most experienced band members to accompany him as the Royal Italian Band, in his summer tour with the Metropolitan Shows.

Last season he had occasion to be in Lexington, Ky., with his Royal Italian Band on the same date as a certain Chautauqua concert band was playing there. Playing in competition with the other band Mr. Passafiume carried away a handsome medal for having the better band.

Critics who heard the concert in this city Sunday were well pleased with the excellent manner in which they rendered very difficult operatic numbers.

# SUNRISE RESTAURANT HIGHLY COMPLIMENTED

Captain Hardway and the members of Company M are all well pleased with the excellent treatment received at the Sunrise Restaurant, during the past week that they have taken meals there.

Mr. Armintrout, the proprietor, has served in the coast artillery of the Regular Army and understands the likes and dislikes of the boys.

Only the best of everything is served, pure lard is used in cooking and country or creamery butter and good cream are served on the tables.

The capacity of the restaurant for good service has been taxed but, never-the-less, Mr. Armintrout has been able to take care of all of his regular customers.

Mexicans Driven Back Across the Line and Our Boys Ordered "Straight Across if Shot Comes."

By Associated Press Dispatch.

Nogales, Arizona, June 28.—American occupation of Nogales, Sonora, loomed close early today when eight Mexican soldiers were driven back by a United States sentry post as they tried to cross to the American side.

The Mexicans withdrew, and Major William Brooke ordered his men to "drop anybody you see acting suspiciously."

"If a shot comes from over there we'll go straight across."

# CASEMENT SPEAKS IN OWN CASE

CHIEF COUNSEL ARGUES THAT INDICTMENT CHARGING TREASON AGAINST SIR RODGER IS FAULTY.

PRISONER DENIES IN TOTO SOME OF THE DAMAGING ITEMS OF EVIDENCE — PLAINLY MUCH PERTURBED.

(Associated Press Cable)

London, June 28. — Alexander Sullivan, chief counsel for Sir Rodger Casement, resumed his argument in an attempt to show the indictment charging Sir Rodger with high treason was faulty when the court convened today.

After he had concluded his address, the Court overruled his motion to quash the indictment.

Announcement was made by Mr. Sullivan that the prisoner desired to make a statement. Sir Rodger's statement was delivered in a clear voice, but it was plain he was laboring under a great nervous strain.

The prisoner leaned heavily on the rail of the dock and his hand that held the paper shook as though palsied. He said in part:

"There are, in especial, four misstatements given in the evidence against me which I must refute.

"First, I never at any time advised Irishmen to enlist with the Turks, Russians, or to fight with the Germans on the western front;

"Second, I never asked an Irishman to fight for Germany;

"Third, the horrible insinuations that I got my own people's rations reduced to the starvation point because they did not join the Irish brigade is an abominable falsehood;

"Fourth, there is the widespread imputation of 'German money.' I owe it to those in Ireland who are assailed with me on this very ground to nail the lie once and for all.

"It was published by newspapers in America, I think originating in this country, and I cabled to America instructing my American lawyer to proceed against those papers for libel."

Today's session of the trial was brought to a sudden and dramatic close. While summing up for the defense, Mr. Sullivan collapsed as he was in the midst of an impassioned appeal, and the court adjourned until tomorrow morning.

## INSECT TRAVELERS.

Moths, Butterflies and Beetles Make Long Distance Journeys.

Mr. William Evans, a Scottish naturalist, who has made a lifelong study of the fauna of Scotland, obtained from a dozen Scottish lighthouses 241 species of insects, which include two butterflies, 150 moths, eighteen caddis flies and lacewings, forty diptera, ten beetles and a dozen other species. Most of the specimens were males. To reach the Isle of May, in the Firth of Forth, where Mr. Evans collected most of the insects, many of the specimens must have flown across several miles of sea.

In his records Mr. Evans calls attention to several other extraordinary flights of insects.

Thus, the "painted lady," or thistle butterfly (*Pieris cardui*), has been known to cross the Alps; the red admiral butterfly (*Vanessa atalanta*) has landed in numbers on the deck of a vessel 500 miles from the coast of England; the common white butterfly (*Pieris rapae*) crosses the English channel in clouds; the famous milkweed butterfly (*Danais archippus*), abundant everywhere in the United States, is said to make the 2,000 mile journey from California to the Hawaiian Islands and has gradually progressed by way of the south sea islands as far as Australia.

A death's head moth has boarded a steamer 200 miles off the Cape Verde Islands. Clouds of ladybirds miles in extent, so that they resembled smoke from a steamer, have been seen at sea. A swarm of locusts that passed over the Red sea in 1889 is said to have extended over 2,000 square miles, and it was estimated to weigh 42,850,000,000 tons!

## SLOW ACTING NERVES.

Earthworms and Clams In No Danger of the Strenuous Life.

The common earthworm has two sorts of nerves.

One of these is a thread running lengthwise of the body between the places where head and tail would be if the creature had either. This nerve has only one use—to carry the signal to shorten up.

So when the worm, keeping underground by day, comes by night half way out of its hole and suspects, though he cannot see, the early bird looking for breakfast, whisk goes the signal along the nerve thread, one end of the body flattens out and locks fast in the burrow, and the rest pulls into safety.

This sort of nerve carries a message at the rate of a yard and a half a second, or about seventy times more slowly than our own do.

The other sort of nerve takes care of the crawling. Signals along these nerves travel only an inch a second. If our inner telegrams were sent as slowly, it would be a whole minute from the time the pitcher threw the ball till the batter started to swing his club at it.

Yet, as the simpler creatures go, the earthworm is not especially sluggish. The fresh water clam, for instance, gets word from one part of its body to another at only half the earthworm's rate. So it is 2,400 times slower than a man.—Edwin Tenney Brewster in St. Nicholas.

## TODAY IS CRUCIAL IN THE NEGOTIATIONS

Officials Believe It Probably the Last Day Carranza Will Be Given to Comply With the Demands.

If His Reply Does Not Arrive By Night or Is Unsatisfactory President Will Likely Ask Congress for Authority to Rescue Prisoners By Force.

President Determined That There Shall Be No Delay By Carranza.

By Associated Press Dispatch. Washington, June 28.—This was regarded by Washington officials as the crucial day in negotiations with Mexico.

It was probably the last day allowed General Carranza in which to comply with the United States' demand for release of 23 troopers held as prisoners at Chihuahua City.

If his reply, either by act or in a communication, does not arrive by night, or if it is unsatisfactory, President Wilson is determined to go before Congress, probably tomorrow, and ask authority to rescue the prisoners by force.

Indications were that Congress would comply promptly with President Wilson's request in case he should find it necessary to send an armed expedition against Chihuahua.

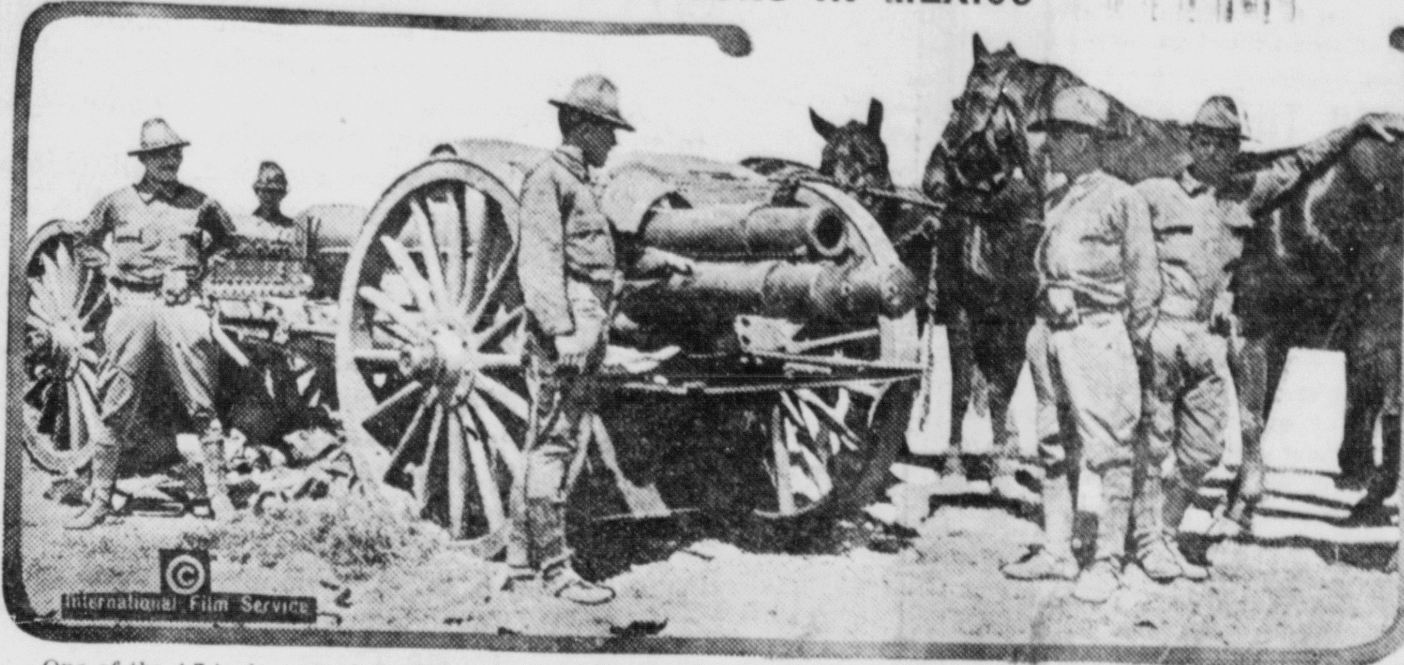

## SHORT SUPPLIES FOR OHIO GUARD

OFFICERS AND MEN DISAPPOINTED WHEN THEY LEARN ONLY ENOUGH COMES TO SUPPLY ONE REGIMENT.

By Associated Press Dispatch. Columbus, O., June 28.—Officers of the Ohio National Guard were plainly disappointed today when they learned the long expected shipment of ordnance from the Government arsenal at Rock Island, Ill., was sufficient to meet the requirements of but one regiment recruited to the required strength.

On receipt of these and other supplies, which were to arrive from St. Louis, depends the issue of order to guard organizations throughout Ohio to entrain from Camp Willis, near this city, Adjutant General Hough has repeatedly stated. Officers, however, were of the belief that further shipment of the necessary supplies would soon arrive, and that it would yet be possible to issue orders tonight for the movement of one or more regiments to the mobilization camp tomorrow. Batteries A, of Cleveland and B, of Akron, have been ordered to the Camp of Battery C, at Briggsdale, and begin training under the direction of Major H. M. Bush, commander of the Ohio Guard Artillery. This was the only movement of guardsmen ordered today.

## CARRANZA SEEKS AID IN COURSE

BELIEVE DELAY IN REPLYING IS DUE TO EFFORT TO SECURE JUSTIFICATION OF COURSE.

By Associated Press Dispatch. Washington, June 28.—General Carranza's delay in replying to President Wilson's note demanding the immediate release of American soldiers held prisoners at Chihuahua is believed here to be due largely to his hope to have South and Central American countries agree fully to his course before he takes a final step.

President Wilson had a busy day. Senator Lewis, of Illinois, was one of the many callers with whom he discussed the Mexican problem.

"The President expressed the wish to me," Senator Lewis said, "that whatever discussion there might be in Congress on the Mexican problem would be conducted entirely in a non-partisan manner."

## OHIO'S SHARE OF EQUIPMENT ON THE WAY

Fifty Carloads of Equipment for Troops of Central Division Shipped From Government Arsenal.

By Associated Press Dispatch. Rock Island, Ill., June 28.—Fifty carloads of equipment for the troops of the Central Division have been shipped from the Government's arsenal here. Ohio's allotment of arms and ammunition and supplies is enroute.

Movement of the National Guard toward the border is under way. Troop trains are rushing southward bearing a large part of the Eastern regiments to Texas.

Fourteen thousand men were started on their way from eastern coast states last night and 40,000 more were ready to entrain today.

Most all of the Western States have started a part of their men to the border.

None of the Central Division have yet got under way but are expected to start tomorrow.

Railroad companies are working in conjunction to expedite the transportation, and red tape has been eliminated in transferring trains from various roads in order that there be no delay.

## RODGERS EXPECTS A REPLY TODAY

Believed Carranza Government Is Investigating the Carrizal Affair.

By Associated Press Dispatch. Washington, June 28.—Special Agent Rodgers at Mexico City, in a brief telegram received at the State Department early today, said he expected to be handed today Carranza's reply to the American note

demanding the release of soldiers taken prisoners at Carrizal.

The message, containing but two sentences, was the first word the Department had heard from Mr. Rodgers since he reported the delivery of the note.

It said it was believed the Mexican authorities were investigating the Carrizal affair, but gave no indication of what would be the reply to the American demands.

## NOTABLE ITALIAN ADVANCE

Intensity of Bombardment By British and French on German Lines Is Emphasized in Dispatches From Front.

French Holding Their Own North of Verdun—German Attacks Repulsed With Heavy Losses.

(Associated Press Cable) London, June 28.—The notable advance of the Italians over the ground from which they were forced in the recent Austrian offensive shows no signs of a halt.

They have pushed along the Asiago Plateau, occupied the other side of the Asa Valley and captured other important positions between Posina and Astico.

Dispatches from the British front in France and Flanders lay emphasis upon the intensity of the bombardment which is being brought to bear upon the German lines.

No important move of the infantry of this front, however, has yet been reported.

The French are holding their own north of Verdun, where continued German attacks in the Thiamont and Fleury sectors, delivered last

night, were completely checked by the artillery and infantry fire of General Nivelle's forces, according to this afternoon's bulletin from Paris.

## RELIEF CLAUSE STARTS RUMPUS

By Associated Press Dispatch. Washington, June 28.—Insistence upon its amendment to the House military drafting resolution striking out the million dollar relief appropriation for dependents of enlisted men, was ordered by the Senate today after a disagreement on that issue had been reported by its conferees.

## HARDENING PROCESS FIRST

Acclimation of Raw Troops Will Be Hastened By Long Hikes in the Hot Sun.

By Associated Press Dispatch. San Antonio, Texas, June 28.—Troops being rushed to the border will be at once put through a hardening service calculated to hasten acclimation and fitness for service in the heat to which they are unaccustomed.

Hikes of five miles under full equipment will be the first step, and the drill will be advanced until the men are fit for thirty miles a day.

## RUMOR SAYS MURDERERS WERE KILLED

By Associated Press Dispatch. Columbus, N. M., June 28.—Army officers are investigating a report that the murderers of William Parker and wife on their ranch southwest of Hachita were caught early today on this side of the border and killed.

A message received by a relative of the Parkers said the bandits, six in number, were wiped out.

## CAVALRYMEN ARE DRILLING

By Associated Press Dispatch. Columbus, N. M., June 28.—Large forces of Carranza cavalry are being concentrated a short distance east of General Pershing's line of communication between Colonia Dublan and El Valle, according to a report brought here today by army motor truckmen.

The truckmen assert that the American commander is drilling his men regularly and is sparing no effort to make his force as mobile as possible.

## CENTRAL ORDERED TO MOVE

Maj. Gen. Barry Orders Immediate Movement of "Reasonably Ready" Units.

By Associated Press Dispatch. CHICAGO, JUNE 28.—ORDERS WERE ISSUED TODAY BY MAJOR GENERAL THOMAS H. ## MEXICO SENDS PROTEST NOTE

Washington Informed of "Outrages" Perpetrated By American Troops.

Washington, June 28.—A note protesting against outrages against Mexican citizens, alleged to have been committed by an American force 3,000 strong marching from San Geronimo toward Valle, was sent to the State Department today by Eliseo Arredondo, Mexican Ambassador, on instructions from the Carranza Foreign Office.

Vigorous complaint against the alleged arrests and mistreatment of 300 civilians at La Cruz is registered in the note, with a request that the officers responsible be punished and steps taken to prevent a recurrence of such an incident.

The big July Fourth celebration to be held in Washington is attracting much interest throughout the county.

The Mayors of Bloomingburg, Milledgeville and New Holland have expressed their intention of appearing in the big patriotic parade.

The Fayette County Fish and Game Protective Association guarantee five hundred marchers in the parade.

Six balloons, bearing tickets to the races, were sent up at 7:30 Tuesday night. The breeze being good, they were well on their way toward Staunton when last seen. More balloons will be sent up every night from now until the Fourth.

Members of the Dutch Treat Club, who have the affair in charge, are working hard every spare minute to make the celebration a success in every detail.

Mayor Creath of Bloomingburg, Mayor Zellars of New Holland and Mayor Ferguson of Milledgeville will march in patriotic parade on the Fourth.

Guards will march if they are still in the city.

A representative of the J. O. U. A. M. assured the committee that the local order accompanied by other orders in the county would march in the parade.

## ENGINE DEAD TRAIN DELAYED

The west bound train on the Pennsylvania Lines that is due to leave this city at 3:50 p. m., did not pull into the station until 5:55 p. m. Tuesday, having been held up three-quarters of a mile east of the city by a broken valve on the engine.

A new engine had to be sent from Lancaster before the train could be moved.

## SUDDEN DEATH MRS. SARAH FARMER

The eternal summons came with utter unexpectedness to Mrs. Sarah E. Farmer, at her home on Washington Avenue, Tuesday night at 10 o'clock, following a sudden attack of the heart.

Mrs. Farmer's death brought overwhelming sorrow to her two devoted daughters, Misses Kate and Lucy, who have the sympathy of a large circle of friends in their great loss.

Although seemingly a far younger woman Mrs. Farmer had reached the advanced age of 87. She was a woman of unusually strong and lovable character and her friends were many and close.

Only a few months ago Mrs. Farmer and daughters returned to this city, their home a number of years ago, from Greenfield, where their home had been made for some time and where Mrs. Farmer's death will be learned with great regret.

A short service will be held at the residence on Washington Ave., Friday afternoon, the remains being taken at 1:00 p. m. to Greenfield, where funeral services will be held Friday afternoon at 2:30 o'clock. Interment in Greenfield cemetery.

## ROBBERY OF EXCURSIONISTS BELIEVED PLAN

Suspect Who Was Caught Riding Coaches on the Big Dahl-Campbell Excursion Is Nabbed at Chillicothe.

### DETECTIVES INVESTIGATE.

Was Lewis White planning to rob a Dahl-Campbell excursion train? This is what B. & O. officers would like to know. As yet no reports of robberies on any of the six excursion trains have reached this city but the case of White is considered suspicious.

Captain W. S. Manss of the Ohio division B. & O. police left Lancaster on Monday afternoon with grocery tourist special starting from that city. Leaving Greenfield, he saw a man running over the top of the train. Thinking the man was a breakman he paid little attention to the matter until reaching Lyndon.

There he saw the man sitting on a coach at the front of the train. Thinking he was a train-rider Manss decided to capture him. Manss watched the man until Roxabel was reached and then started after him. He saw Manss coming and disappeared on the other side of the train.

It was later learned that the man had a box of jewelry and that he had tried to sell a B. & O. fireman named Gilbert a ring. Reports that the man carried a rope, presumably to let himself down from the coach top to rob the occupants were not verified.

Captain Manss notified Patrolman Nehring in this city of the case and the latter immediately left for Roxabel. Reports were later received at division headquarters that the man had been caught by colored section men and had been turned over to Deputy Sheriff Strawder McNeal.

Patrolman Nehring brought the man to this city and he was arraigned on a charge of train riding in police court, this morning. He gave his name as Lewis White, 19, Augusta, Ga. He was fined \$10 and costs and will be held pending investigation.

When searched at headquarters an empty jewel case was found on White. It is believed that he has hidden the contents near Roxabel. A search will be made there. It was reported that White had offered a diamond ring for sale to a man near Roxabel.

White, it is said, was arrested here about a year ago for intoxication and disorderly conduct. He is said to have a sister residing here. —Chillicothe News-Advertiser.

## FOREIGN WRIT IS RECEIVED

A foreign execution was received by Sheriff Jones Wednesday issued by the Clerk of the Common Pleas Court of Clinton county, directing him to levy the same on all property of The Clinton Garage Company, or J. W. Fisher, found in this county. The judgment amounting to \$271.41, is in favor of Lucinda Gordon.

J. W. Fisher, one of the defendants, owns land in this county.

## DRUNKS FINED

Nathaniel Jones of this city and a man who gave the name of Gilmore, from Xenia, were picked up in Avondale by Chief Moore about 5 o'clock Tuesday afternoon.

They had both participated a little too freely in certain life-giving stimulants and were well "in the clutches of King Alcohol" when reported by residents of that section. They were escorted to the jail and appeared before Mayor Oster Wednesday morning where they were each fined \$5.00 and costs.

Both men declared themselves to be destitute of funds and Mayor Oster gave them until Monday morning at 9:00 o'clock to settle in full or stand the consequences.

## AGE LIMIT IS EXTENDED

War Department Makes New Ruling Which Will Aid Recruiting.

Latest general order from Col. Barger makes it possible to muster enlisted men between the ages of 18 and 26 without parental consent, and to muster men between the ages of 16 and 18 with the consent of parents, and age limit of 35 years is revoked. This latest order will probably stimulate recruiting in the local company.

Following is General Order No 5 as received late Tuesday afternoon by Captain Hardway:

"Paragraph 1.—Telegraphic instructions from the War Department to the Senior Muster Officer directs that officers mustered be between the ages of 21 and 64; enlisted men may be mustered between the ages of 16 and 18 with the consent of parents; enlisted men may be mustered between the ages of 18 and 21 without parental consent; enlisted men may be mustered up to 45 years of age without regard to previous enlistment, the age limit of 35 years is revoked.

"Paragraph 2.—All ammunition in broken packages will be brought to camp in sealed packages.

"By order of  
"COL. BARGER."

## POINTED POSTER WARNS WARY

The official artist and sign painter of Company M has been busy. A number of very suggestive placards appeared on the court house grounds about the recruiting station Wednesday morning. The most conspicuous one was pinned to the top of the recruiting officer's tent and painted in red letters, "Danger—Recruiting Station." Just beneath it was another reading, "No Cowards Wanted."

The one causing the most comment was tacked to the tree standing in the corner between the Court street pavement and the walk leading to the steps of the court house. It read thus: "If You Are From Washington, That Lets You Out."

### "TELEPHONE" CURES THIRST.

French Soldier Confesses, and Penalty Is Cut In Two.

Paris.—A court martial at the front. The presiding officer, speaking with a distinctly kindly intonation to the accused:

"Now, now, admit that you telephoned."

"No, my colonel, I did not telephone."

"If you confess you will only have half the penalty."

"Well, then, yes, my colonel, I did telephone."

All the court laughed and a nominal sentence was pronounced.

The civilian should not imagine that the use of a telephone is a crime in the French army. To "telephone" in army slang is to bore a little hole in a full barrel of wine, to fit a rubber tube thereto and apply the mouth to the other end.

### VALUES HIS HOUNDS.

Hiawatha (Kan.) Resident Places Their Worth on Tax Rolls at \$2,000.

Hiawatha, Kan.—On the assessment rolls of Brown county the name of F. E. Kelley, who lives on the Kickapoo Indian reservation, is down for \$3,510 worth of property.

Mr. Kelley's hogs, cattle and implements are valued at \$1,510, and twenty dogs are valued at \$2,000. Kelley insisted on valuing the dogs at \$100 each.

They are hounds. County Clerk John Mathewson thought there was a mistake in entering the assessment and took the matter up with Kelley. The owner of the twenty dogs insisted on standing pat on his returns, and in addition to paying personal tax on the twenty hounds he will also have to pay the regular dog tax.

### COURT BAN ON "SPOONING."

All Right Only When Public Can't See. Says New Rochelle (N. Y.) Judge.

New Rochelle, N. Y.—"Spooning" in public places in New Rochelle even after dark, if others can see it, must stop. This was the edict of Acting City Judge Bizez as he fined Peter Aryell of River street \$15 for love-making in Stonelea park. Miss Julia Gleason of Echo manor, the girl who was with Aryell, was sent home and advised to be more circumspect.

"I don't care if you spoon in Hudson park or Lover's lane or anywhere where people cannot see you, but you must not spoon right out in public," said Judge Bizez.

The residents of Stonelea park have complained to the police that the park is a favorite place for "spooning" and that youths and maidens of fifteen years gather there. Robert Lesser, manager of Hudson park, who placed "spooning benches" near the shore in the park, may plant a hedge behind the benches to protect the young lovers as a result of Judge Bizez's ruling.

## PEDESTRIANISM ON THE INCREASE

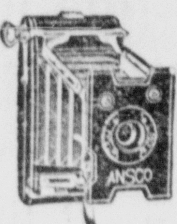

(Associated Press Cable)

Paris, June 28.—Pedestrianism is being revived in France. The women particularly are taking to walking, even though they may have ample means to indulge in motor-ing, both for the healthful exercise and the economy. The new and more commodious styles of women's skirts make walking easier, and there is a certain amount of rusticity about the new fashions that does not go well with the motor car, and it is suggested that this latter point has been an aesthetic reason for the revival of walking.

Every morning the popular alleys of the Bois de Boulogne are turned into training quarters by these new adepts of pedestrianism. The reduced number of motor cars flying around Paris and the consequent diminution of the dust nuisance on suburban roads has made walking to Saint Cloud and other delightful spots more comfortable.

## OHIO TEACHERS IN MEETING

Cedar Point, June 28.—The sixth-ninth annual convention of the Ohio Teachers' Association was opened Tuesday with indications that it would be a record-breaker for attendance. The convention will be in session four days. Last year more than 1,000 teachers registered for the convention. This year the number is expected to exceed 1,500.

At the close of the convention here many of the Ohio teachers expect to leave for New York to attend the annual meeting of the National Education Association, July 3 to 8. W. E. Kershner, of Columbus, secretary of the Ohio association will have charge of the Ohio party. A boat trip through Lake Erie and down the Hudson River is planned.

This year's program is the most elaborate ever arranged for an Ohio teachers' meet. Among the more prominent speakers are Dr. W. C. Bagley, of the University of Illinois, and John Barrett, director-general of the Pan-American Union.

A feature of the convention will be the discussion of the question: "Should Systematic Military Training Be Included in the Course of Study Required of All Boys in All Schools Above Grammar Grades and Should it Be Supported Wholly or in Part By Public Funds?" Dr. W. O. Thompson, of Columbus, president of Ohio State university, will take the affirmative side, and Dr. Herbert Welch, of Delaware, president of Ohio Wesleyan university, the negative.

Although it is said by early arrivals that the movement in behalf of a teachers pension law is more pronounced now than at any time in the past, indications are that any action by the convention will be deferred until the mid-winter session, just before the legislature assembles.

Superintendent H. V. Hotchkiss of the Akron public schools is president of the association. County Superintendent G. J. Keinath of Ottawa, Superintendent D. J. Boone, of Lorain, Supt. W. H. Angel of Denison, Dr. Alson Ellis of Ohio University, Athens; Howard G. Carter of Hamilton and John D. Harlor, of Columbus, are vice-presidents.

### THEY APPRECIATE FAYETTE'S HORSES

Fayette county horses will undoubtedly play an active part in war activities, if the present menace of trouble with Mexico looms into genuine war, and it is gratifying to know that there is no territory from which the army is more eager to secure re-mounts.

Concerning the last bunch of 35 head of horses delivered by Renick Allen at the Front Royal, Va., remount station, the eastern depot for governmental remounts, comes the echo of approval from headquarters. Sen. Downing personally visited Capt. Sturgis on last Sunday and congratulated him, as the ranking officer, upon the calibre of the Fayette Co., horses, adding that this county has the reputation of sending the best horses received at the station.

Young Allen was greatly impressed with the effervescing spirit of the southern people, bubbling over with war fever. He reached Front Royal on the day when the first orders were issued to the guards and the temper of the people reached the high tide of enthusiasm—all personal risk eliminated in zeal for the nation's honor.

The nearer the location to the capitol the more realization there is of the stress of present conditions.

## AFTER THE WAR TRADE PROTECTION

(By Associated Press Cable)

London, June 28.—The latest plan for "after the war" trade protection was outlined at a recent meeting of one of the principal manufacturing concerns in the Midlands. British manufacturing interests are planning an Association which will not organize until one hundred responsible firms join and agree to deposit \$5,000 each. Many important industrial firms have already put their names down for membership and their aggregate capital totals \$450,000,000.

The organization which will probably be called the "Industrial Association," plans to mobilize commerce, exchange views, consult and decide on a policy necessary to cope with "after war" trade conditions. The chairman of this particular meeting said that the country generally was caught napping in the matter of national and imperial security and safety and they were paying a pretty price for folly and refusal to face facts. It was therefore up to the trade of the country to be ready and prepared for the new world and new conditions which will have to be faced.

The new association will welcome views from all sections of trade and hopes that all existing and kindred associations will be connected more or less with it in intimate relationship, while it may also be the means of bringing together into partnership, for mutual good, capital and labor.

## HIGH PRICES IN BELGIUM

(Associated Press Cable)

The Hague, Netherlands, June 28.—Notwithstanding the good offices of the Belgian Relief Committee the prices of articles of popular necessity in Belgium have risen to unheard-of heights. A list of some of these articles shows an average rise of 45 per cent, as compared with 1914. According to Belgian advices, a packet of household soap that formerly cost 11 cents, now costs one dollar; coffee is \$1.50 a kilogram, as against 40c; sugar forty-two cents, against fourteen; bacon or ham \$1.20 as against 48 cents; tobacco 80 cents, against 30; butter, \$1.40, against 64 cents; prime beef \$1.60, against 30 cents; and cheese \$1.28, against 48 cents.

While regulations and maximum prices have been proclaimed by the authorities, it is declared that if one seeks any of the things thus officially regulated at the lawful price, the customer is told that it is "sold out"—and the sale is made only secretly at any price the dealer can command.

### COAL SYNDICATE

(Associated Press Cable)

London, June 28.—German, Austrian and Hungarian coal owners are forming a syndicate to supply coal to the Balkans, hitherto largely furnished by Great Britain. The capital is \$1,000,000. Steps will be taken to develop the Danube river traffic for carrying the coal. The Balkan States have been getting some 2,500,000 tons of coal every year from England.

### MOUND BUILDERS

By Associated Press Dispatch.

Columbus, O., June 28.—Relics which will throw more light on the lives and customs of the mound-builders, will be sought in Southern Ohio this summer by a party from Ohio State University, headed by Curator W. C. Mills of the Archeo-

logical Museum at the university. extensive excavations will be made. The party will consist of Dr. and Mrs. Mills and their daughter, a sophomore engineering student at the university. The party will leave July 1 and will be gone about two months.

"Anything that is of importance in regard to the history of these former inhabitants will be carefully preserved and the place of the excavation noted," said Mr. Mills. "Carefully prepared topographic maps will be made of the mounds, showing the exact location of the find and the character of the mounds."

## BUT DID THEY?

(By American Press)

Indianapolis, Ind., June 28.—Credit for the defeat of William Barnes as Republican national committeeman for New York was claimed for the Anti-Saloon league by William H. Anderson, superintendent of the league for New York, at the annual convention of the Anti-Saloon League of America, which is being held here. Dr. A. C. Bane, financial secretary of the Anti-Saloon League of America, spoke on "Our Country's Crime Against the Cradle." The country's greatest crime, he said, was the licensing of the liquor traffic, "which menaces the life and character of every American child and the future of the republic."

### The Quail Prosperous

From almost every section of the state come reports of the great increase in the number of quail.

In this county the number of little Bob Whites in evidence is a surprise to town folks every time they take a trip into the rural sections.

A halt by the roadside at almost any time of the day will enable the traveler to hear the cheery call of the quail in every direction.

From fields and meadows, from woods and thicket the call is sent out and but very few miles along any rural highway—main pike or country road—can be traveled without seeing some members of the numerous covies out seeing the sights.

Many of the quail have become so certain of their immunity from death or bodily harm that they barely run off the side of the road far enough to let the traveler pass by. Some of them are so independent and certain of their rights that it is necessary to actually run them off the road to prevent injuring them.

From their actions one would be almost warranted in believing that some of the more powerful leaders of the Bob White colonies had secured the enactment of the special legislation themselves and the whole feathered family was growing fat, under the property fostered by protective legislation.

Well, any way, we believe in that kind of special legislation.

### "Outside" Police Officers

Mayor Oster has asked council to give him the authority to appoint policemen whom he will call, for want of a more appropriate name, "outside police." At the Monday night session the city council failed to grant the request by a suspension of the rules.

It is Mayor Oster's idea that these men be located in the outlying districts and receive no salary from the city—sort of neighborhood officers so to speak. There identity is to be kept secret from the general public.

The main consideration moving to these police would be the preservation of order in the neighborhood in which they live.

The good results would be largely the outcome of the deterring influence, the known presence of the eye of the law would have on evilly inclined persons.

Known police officers can be located and watched and the evil doer proceed in safety. The unknown officer they can't keep tab on.

The best policeman in the great city of Chicago never made an arrest in twenty-two years of service, but his presence in the bad district compelled evil doers to flee.

There is no disposition, at this time, to complain about council's action. The legislative body, we must presume, has a good reason for its action.

But the idea, as Mayor Oster suggests it, looks like a good one. It seems, in every way, worthy of a trial.

We have three police officers on the city force, all we have money to pay, and it's impossible for them to be "wandering" around in the outskirts of the city keeping those who would do evil, so uneasy and disturbed that they are unable to consummate their plans—so uneasy in fact that they will soon leave the community or abandon their plans, something the "outside" police proposal promises at least to accomplish.

The plan is worthy of the consideration of the solicitor and council.

If there is any bar in the Ohio laws to such a plan that's one thing, but neither personal feeling nor politics should be the cause of blocking such a proposal.

### Before the World

No matter what turn the present crisis with Mexico may take, no matter what position this nation may be compelled to assume, even to the extreme of armed intervention, the world has entire confidence in the good faith of the United States.

While, at times, there has been some inclination, during the stirring times of the last two years, among a few impatient and hot tempered folks, to complain some about the purposes of the national administration and the high moral stand assumed by the federal government, yet now when a crisis has forced the nation to affirmative action the confidence of the entire world in our absolute sincerity is compensation enough even for those who were most impatient.

Our lofty ideals were perhaps in advance of a custom which apparent necessity had compelled some nations to adopt and adhere to. It remained for the people of the United States to emphasize by a course of action during a series of the most alarming crises the world ever witnessed and in the face of repeated provocations that self-control which heretofore has been largely only an accepted theory.

This nation has proven to the world that it is not bent on conquest and is in fact actuated, in whatever course it may be forced to take, solely by a desire to aid humanity.

## Poetry For Today

### Patriotism

A good poem to reread on this Fourth of July

By SIR WALTER SCOTT

BREATHES there the man with soul so dead  
Who never to himself hath said,  
This is my own, my native land:  
Whose heart hath ne'er within him burned,  
As home his footsteps he hath turned  
From wandering on a foreign strand?  
If such there breathe, go, mark him well:  
For him no minstrel raptures swell;  
High though his titles, proud his name,  
Boundless his wealth as wish can claim,  
Despite those titles, power and pelf,  
The wretch, concentered all in self,  
Living, shall forfeit fair renown  
And, doubly dying, shall go down  
To the vile dust from whence he sprung,  
Unwept, unhonored and unsung.

## LEATHER FROM THE SEA.

The Product of Shark, Sturgeon and Angel Fish Skins.

It is a curious fact that many sorts of leather are got from sea creatures, some of which are very beautiful. The skin of sharks is a beautiful burnished gray or bluish color. The surface resembles finely grained leather since it shows many tiny prickles all set one way. This property of shark skin renders it especially valuable to the manufacturer of shagreen. Since the skin is at once tough and easy to work it can be used for many purposes where decorative effects are desired.

In spite of its lumpy armor the sturgeon furnishes a valuable and attractive leather. It has been found that when the bony plates are removed the patterns remain on the skin, just as the patterns of alligator scales remain on alligator leather, a circumstance that adds greatly to the value of the product. From the sturgeons that abound on our Pacific coast and in the great lakes we get a tough leather that is used for the making of laces to join leather belting for machinery. It is said that the lacing frequently outwears the belting itself.

There is found in Turkish waters a strikingly unattractive fish called the angel fish, classed among the littoral sharks. This fish yields an extremely high quality of green leather, much esteemed in the Ottoman dominions.—Kansas City Journal.

## HIS PROPHECY COMES TRUE.

Tree Left Standing as Lightning Rod Is Hit, Barns Untouched.

Islip, N. Y.—A bolt of lightning, the only one in a period of two hours during a thunderstorm here recently, struck and completely demolished a huge locust tree which was more than a century old, and was a well known landmark on the farm of E. F. Davis. The tree was over a hundred feet high, and there was not a branch within forty feet of the ground.

Mr. Davis said that he not long ago refused an offer of \$100 for the tree from a man who wanted the trunk for a pole. He did not sell it, he said, as his father had always argued that the tree should be left where it stood because it might some day be hit by lightning which otherwise might hit the barns close by.

## TO BREAK BREAD

(By American Press)

New York, June 28.—Theodore Roosevelt accepted Mr. Hughes' invitation to dine with the presidential nominee at the Astor tonight. This announcement aroused great interest in political circles. The prophets interpreted it to mean that the last step in the reunion of the warring factions in the Republican party is then to be taken.

## CROSSING CONTINENT, HEN SITS WILLINGLY

Three Chicks Extricated When Crate Arrives at Albany, N. Y.—Other Eggs Show Signs.

Albany, N. Y.—A hen which continued to sit while traveling across the continent is the possession of J. W. Wolf from of this city.

The hen was sitting with motherly devotion upon a nest of eggs which a friend of Mr. Wolf from placed in a crate in Riverside, Cal., and shipped through a transcontinental express company to this city. She continued to sit, disturbed not in the least by the transcontinental trip. Her protection was a conspicuous placard on the box reading: "Sitting Hen—Eggs Expected to Hatch—Handle With Care." The warning was punctiliously observed by express employees.

When the crate arrived at its destination three downy chicks were extricated from the shells and other eggs gave forth evidences of hatching.

## STEALS LOCOMOTIVE TO GO TO DANCE, THEN ESCAPES

Montana Youth Sends Engine Running Wild After Reaching Destination.

Bozeman, Mont.—"By George, I'm going to that dance at Paxton's somehow!" an unknown young man declared here when informed there would be no trains going east for some time. He walked over to a lone locomotive, entered the cab and started east, breaking through a closed switch and going out on the main line.

Engineer McVicker in a locomotive was traveling toward this city when he noticed the block system registered danger. He saw the smoke of an engine approaching and stopped his engine. His fireman jumped, and McVicker reversed his engine. Fireman Boehling caught the approaching engine, climbed into the cab, found it "driverless" and brought it to a stop a short distance from McVicker's engine.

No trace of the locomotive thief has been found. He evidently jumped when he saw the other engine approaching.

## TEMPLE OF DISHONESTY.

It Will Have the Form of House, and All the Parts Are Stolen.

Los Angeles.—Somebody is building a temple of dishonesty in the form of a house, of which all the component parts are stolen.

Now the thieves are stealing the doors. The last case of such thievery was reported to the police recently by Mrs. W. H. Hill of 1414 Fedora street. When Mrs. Hill left home the other morning the back door was locked safely on its hinges. When she returned two hours later the door was gone. Other house parts have been stolen in other neighborhoods recently.

The police are wondering what the thieves will do when they get around to making a basement and cement walk for their homes.

## FOUND \$60 IN OLD CLOTHES.

Owner Gave Salvation Army Captain Part of It as Reward.

Portland, Ore.—They were sorting old clothes at the Salvation Army Industrial home the other day, with never a thought of hidden riches in the frayed and spotted garments that had been given to charity. Yet the task was enlivened when a handbag dropped from a bundle of clothes before the workers. They opened it to discover six ten-dollar bills.

The woman who had contributed the bundle was at once sought and located. To Captain Andrews, who returned the money, she expressed her gratitude by presenting one of the bills to the Salvation Army.

## PLOW BY NIGHT ON FARM.

Tractor Equipped With Searchlight Works Continuously For Two Days.

Lansdale, Pa.—Plowing at night by artificial light is an innovation on the farm of the Lansdale Mushroom company at Lansdale. The late spring made it necessary to devise some means to catch up in the work, and the plowing by night idea was hit upon.

The plowing was done by a tractor engine equipped with an acetylene gas tank and powerful searchlight. Three shifts worked continuously for forty-eight hours. Ten acres of land were plowed in twenty-four hours.

## GOOD NERVES SHOWN IN WAR.

Medical Journal Comments on Absence of Epidemics.

New York.—"The present war," the New York Medical Journal says, "has brought out many surprises, one of which has been the absence, or comparative absence, of epidemics and the remarkably good health of the armies engaged."

"It is also a matter for surprise that nervous diseases have not been engendered and developed on a large scale by the appalling conditions which exist in this war."

## New Standards of Excellence for Investments

New standards of excellence for measuring the true value of investment securities can be set up and maintained permanently only as fast as the investing public learns exactly what to demand in the way of protection—and how to get it.

The educational value of our advertising and sales campaigns during the past 12 years has been enormous—because we have taught thousands of people to demand strong margins of protection behind their investments, both in property values and average net profits.

To this extent our activity has tended to strengthen the whole investment situation and to improve the quality of all the securities that are offered in the territory we serve.

It is known far and wide that no one has ever lost a dollar of principal or income on preferred stocks purchased from us, and for that reason thousands of investors have learned to demand the kind of safeguards that characterize our current offerings.

For example, each \$100 share of the 7% cumulative preferred stock of The Central Steel Company of Massillon has more than \$100 of actual property value behind it. The net profits are several times the amount necessary to pay preferred dividends. These are strong margins of protection for both principal and income.

If you have \$100 or more to invest, or are interested, as a responsible person, in studying the principles of investment, send us your name and address and we will send complete details about the preferred stocks we market. Do so at once, before forgetting.

# WHOLE COUNTY ENTHUSIASTIC OVER BIG 4TH

Small Towns and Rural Sections Signify Intentions of Participating in Big Parade.

The big July Fourth celebration to be held in Washington is attracting much interest throughout the county.

The Mayors of Bloomingburg, Milledgeville and New Holland have expressed their intention of appearing in the big patriotic parade.

The Fayette County Fish and Game Protective Association guarantee five hundred marchers in the parade.

Six balloons, bearing tickets to the races, were sent up at 7:30 Tuesday night. The breeze being good, they were well on their way toward Staunton when last seen. More balloons will be sent up every night from now until the Fourth.

Members of the Dutch Treat Club, who have the affair in charge, are working hard every spare minute to make the celebration a success in every detail.

Mayor Creath of Bloomingburg, Mayor Zellars of New Holland and Mayor Ferguson of Milledgeville will march in patriotic parade on the Fourth.

Guards will march if they are still in the city.

A representative of the J. O. U. A. M. assured the committee that the local order accompanied by other orders in the county would march in the parade.

## ENGINE DEAD TRAIN DELAYED

The west bound train on the Pennsylvania Lines that is due to leave this city at 3:50 p. m., did not pull into the station until 5:55 p. m. Tuesday, having been held up three-quarters of a mile east of the city by a broken valve on the engine.

A new engine had to be sent from Lancaster before the train could be moved.

## SUDDEN DEATH MRS. SARAH FARMER

The eternal summons came with utter unexpectedness to Mrs. Sarah E. Farmer, at her home on Washington Avenue, Tuesday night at 10 o'clock, following a sudden attack of the heart.

Mrs. Farmer's death brought overwhelming sorrow to her two devoted daughters, Misses Kate and Lucy, who have the sympathy of a large circle of friends in their great loss.

Although seemingly a far younger woman Mrs. Farmer had reached the advanced age of 87. She was a woman of unusually strong and lovable character and her friends were many and close.

Only a few months ago Mrs. Farmer and daughters returned to this city, their home a number of years ago, from Greenfield, where their home had been made for some time and where Mrs. Farmer's death will be learned with great regret.

A short service will be held at the residence on Washington Ave., Friday afternoon, the remains being taken at 1:00 p. m. to Greenfield, where funeral services will be held Friday afternoon at 2:30 o'clock. Interment in Greenfield cemetery.

## ROBBERY OF EXCURSIONISTS BELIEVED PLAN

Suspect Who Was Caught Riding Coaches on the Big Dahl-Campbell Excursion Is Nabbed at Chillicothe.

### DETECTIVES INVESTIGATE.

Was Lewis White planning to rob a Dahl-Campbell excursion train? This is what B. & O. officers would like to know. As yet no reports of robberies on any of the six excursion trains have reached this city but the case of White is considered suspicious.

Captain W. S. Manss of the Ohio division B. & O. police left Blanchester on Monday afternoon with grocery tourist special starting from that city. Leaving Greenfield, he saw a man running over the top of the train. Thinking the man was a breakman he paid little attention to the matter until reaching Lyndon.

There he saw the man sitting on a coach at the front of the train. Thinking he was a train-rider Manss decided to capture him. Manss watched the man until Roxabel was reached and then started after him. He saw Manss coming and disappeared on the other side of the train.

It was later learned that the man had a box of jewelry and that he had tried to sell a B. & O. fireman named Gilbert a ring. Reports that the man carried a rope, presumably to let himself down from the coach top to rob the occupants were not verified.

Captain Manss notified Patrolman Nehring in this city of the case and the latter immediately left for Roxabel. Reports were later received at division headquarters that the man had been caught by colored section men and had been turned over to Deputy Sheriff Strawder McNeal.

Patrolman Nehring brought the man to this city and he was arraigned on a charge of train riding in police court, this morning. He gave his name as Lewis White, 19, Augusta, Ga. He was fined \$10 and costs and will be held pending investigation.

When searched at headquarters an empty jewel case was found on White. It is believed that he has hidden the contents near Roxabel. A search will be made there. It was reported that White had offered a diamond ring for sale to a man near Roxabel.

White, it is said, was arrested here about a year ago for intoxication and disorderly conduct. He is said to have a sister residing here. —Chillicothe News-Advertiser.

## FOREIGN WRIT IS RECEIVED

A foreign execution was received by Sheriff Jones Wednesday issued by the Clerk of the Common Pleas Court of Clinton county, directing him to levy the same on all property of The Clinton Garage Company, or J. W. Fisher, found in this county. The judgment amounting to \$271.41, is in favor of Lucinda Gordon.

J. W. Fisher, one of the defendants, owns land in this county.

## DRUNKS FINED

Nathaniel Jones of this city and a man who gave the name of Gilmore, from Xenia, were picked up in Avondale by Chief Moore about 5 o'clock Tuesday afternoon.

They had both participated a little too freely in certain life-giving stimulants and were well "in the clutches of King Alcohol" when reported by residents of that section.

They were escorted to the jail and appeared before Mayor Oster Wednesday morning where they were each fined \$5.00 and costs.

Both men declared themselves to be destitute of funds and Mayor Oster gave them until Monday morning at 9:00 o'clock to settle in full or stand the consequences.

## AGE LIMIT IS EXTENDED

War Department Makes New Ruling Which Will Aid Recruiting.

Latest general order from Col. Barger makes it possible to muster enlisted men between the ages of 18 and 26 without parental consent, and to muster men between the ages of 16 and 18 with the consent of parents, and age limit of 35 years is revoked. This latest order will probably stimulate recruiting in the local company.

Following is General Order No 5 as received late Tuesday afternoon by Captain Hardway:

"Paragraph 1.—Telegraphic instructions from the War Department to the Senior Muster Officer directs that officers mustered be between the ages of 21 and 64; enlisted men may be mustered between the ages of 16 and 18 with the consent of parents; enlisted men may be mustered between the ages of 18 and 21 without parental consent; enlisted men may be mustered up to 45 years of age without regard to previous enlistment, the age limit of 35 years is revoked.

"Paragraph 2.—All ammunition in broken packages will be brought to camp in sealed packages.

"By order of  
"COL. BARGER."

## POINTED POSTER WARNS WARY

The official artist and sign painter of Company M has been busy. A number of very suggestive placards appeared on the court house grounds about the recruiting station Wednesday morning. The most conspicuous one was pinned to the top of the recruiting officer's tent and painted in red letters, "Danger—Recruiting Station." Just beneath it was another reading, "No Cowards Wanted."

The one causing the most comment was tacked to the tree standing in the corner between the Court street pavement and the walk leading to the steps of the court house. It read thus: "If You Are From Washington, That Lets You Out."

## "TELEPHONE" CURES THIRST.

French Soldier Confesses, and Penalty Is Cut in Two.

Paris.—A court martial at the front. The presiding officer, speaking with a distinctly kindly intonation to the accused:

"Now, now, admit that you telephoned."

"No, my colonel, I did not telephone."

"If you confess you will only have half the penalty."

"Well, then, yes, my colonel, I did telephone."

All the court laughed and a nominal sentence was pronounced. The civilian should not imagine that the use of a telephone is a crime in the French army. To "telephone" in army slang is to bore a little hole in a full barrel of wine, to fit a rubber tube thereto and apply the mouth to the other end.

## VALUES HIS HOUNDS.

Hiawatha (Kan.) Resident Places Their Worth on Tax Rolls at \$2,000.

Hiawatha, Kan.—On the assessment rolls of Brown county the name of F. E. Kelley, who lives on the Kickapoo Indian reservation, is down for \$3,510 worth of property.

Mr. Kelley's hogs, cattle and implements are valued at \$1,510, and twenty dogs are valued at \$2,000. Kelley insisted on valuing the dogs at \$100 each.

They are hounds. County Clerk John Mathewson thought there was a mistake in entering the assessment and took the matter up with Kelley. The owner of the twenty dogs insisted on standing pat on his returns, and in addition to paying personal tax on the twenty hounds he will also have to pay the regular dog tax.

## COURT BAN ON "SPOONING."

All Right Only When Public Can't See.

Says New Rochelle (N. Y.) Judge. New Rochelle, N. Y.—"Spooning" in public places in New Rochelle even after dark, if others can see it, must stop. This was the edict of Acting City Judge Bazel as he fined Peter Arvill of River street \$15 for love-making in Stonelea park. Miss Julia Gleason of Echo manor, the girl who was with Arvill, was sent home and advised to be more discreet.

"I don't care if you spoon in Hudson park or Lover's lane or anywhere where people cannot see you, but you must not spoon right out in public," said Judge Bazel.

The residents of Stonelea park have complained to the police that the park is a favorite place for "spooning" and that youths and maidens of fifteen years gather there. Robert Lesser, manager of Hudson park, who placed "spooning benches" near the shore in the park, may plant a hedge behind the benches to protect the young love-makers as a result of Judge Bazel's ruling.

# CONSTRUCTION OF WILL ASKED

Trustees of the M. J. Williams Estate Want Court to Indicate Line of Distribution Between Rival Claimants.

The case of A. R. Creamer and C. P. Ballard, Trustees of the last will and Testament of Marshal J. Williams, deceased, against Laura K. Williams and others was heard by Judge Carpenter of the Common Pleas Court on Tuesday of this week. The case is one of especial interest because of the fact that Judge Williams, the author of the will was for many years a member of the Supreme Court of Ohio and recognized as one of the greatest Jurists in the middle West.

The suit was brought by the Trustees for the purpose of having the Court instruct them as to the manner of making distribution of the estate of Judge Williams. Because of the language used in making certain devises and bequests the Trustees are in doubt as to how to proceed and by this suit seek to have the court construe the will and instruct them as to their duties.

Under the will of Judge Williams the whole estate is given to Mrs. Williams, the widow during her life she to collect all rents and incomes etc.

At the death of the widow, the will provides that all property shall be converted into a fund by trustees, named, and the trustees to distribute the funds according to item 6 of the will.

Item 6 provides that the entire fund shall be divided into 8 equal shares. One share is given to each one of the testator's sisters living at that time. One share is given to the niece of Judge and Mrs. Williams, Minnie Slye and the remaining shares are given per capita to the testator's nieces and nephews.

The trustees A. R. Creamer and C. P. Ballard ask instructions as to whether the grand nieces and nephews whose parents are dead are entitled to share in the distribution as they claim. The trustees also want a ruling of the court as to whether the rents and profits of the estate unconsumed by the widow during her life time are a part of the estate of Judge Williams or a part of the estate of Mrs. Williams as claimed by the executor of her estate, John Logan.

The attorneys engaged, pro and con are Creamer, Creamer and Thompson, W. B. Rogers, John Logan of this city and D. W. Murphy of Cincinnati.

The entire estate now aggregates about \$90,000 and the questions arising on distribution are novel and intricate.

While the hearing was concluded Tuesday evening Judge Carpenter has not yet announced his conclusion.

WILL YOU SOLVE THE MYSTERY ?

## In Social Circles

Misses Helen and Charibel Smith most delightfully entertained fifty-two young people at a barn party at the home of their parents, Mr. and Mrs. George Smith.

Roses and flags were beautifully arranged in decoration throughout the barn.

The evening was spent in games and singing and a collation of ice cream and wafers was served.

The young hostesses were assisted in the hospitalities of the evening by Mr. and Mrs. Will Baker and Mr. and Mrs. Geo. Smith.

Those present were: Misses Minnie and Maude Cox, Anna Lois Hewitt, Beulah Boncutter, Bessie Grim, Edyth Morgan, Gladys Erich, Hannah Smith, Lilla and Lela Moore, Dorothy Dill, Marie Hines, Edith Haines, Ona Suriesl, Jennie Freshour, Louise Schmidt, Helen Carr, Lucy and Minnie Graves, Delsie Brown Ilo and Yvonne, Ethel Pope, Myra Scott, Mrs. Seymour Campbell; Messrs Willis Fent, Luther and Harvey Graves, Karl Kessler, Ward and Roy Allen, Owen Riley, Homer Moore, Robert Armstrong, Gale Parrett, Seymour Campbell, August Wilt, Ralph Hewitt, Wallace Perrill, Dell Creamer, James Morgan, Wayne and Edward Elliott, Charles Burke, Beltram Boncutter, Loren Hines, Elmer Snierl, Bennie Schmidt, Arthur Maddux, and Master Jesse Smith.

Band Concert by the Washington Band at the Empire Theatre, Wednesday, June 28th.

MAY REACH 110 THIS EVENING

Company M is recruited up to a fighting strength of one hundred and four privates and three officers at the present time. The work of recruiting has moved along more swiftly than usual today, probably due to the increase in the age limit according to the orders received from Col. Barger Tuesday evening, or to a new awakening among the boys in the district to their duty to the country.

Company M stands first among the four companies in the Battalion and sixth in the Regiment, in fighting strength.

Cars to convey troops have been standing on the switch at the B. & O. since Monday, but Captain Harway does not expect orders to move before Friday or Saturday of this week.

MAN 43 YEARS OLD WANTS TO ENLIST

Granville S. Moore of Highland county presented himself at headquarters for enlistment Tuesday evening. Mr. Moore said he was 43 years old, which statement, judging from his looks, no one disputed.

He has been employed as a cook for thrashing crews, and has seen service in the National Guard of the state.

It was with reluctance on the part of the company that this patriotic man had to be rejected upon physical examination.

MAYOR OSTER WILL RIDE IN PARADE

Mayor Oster, in company with the chief executives of Bloomingburg, New Holland, Milledgeville and Jeffersonville, will ride at the head of the big patriotic parade to be given in the city on the morning of July Fourth.

Mayor Oster declined the invitation of the committee until he was assured that he would not be compelled to ride alone.

The Fayette County Retail Grocers' Association has generously given 12 barrels of sugar. A secret being process has been invented by Mr. C. N. Baer, manager of the Washington Ice Company, which insures the success of the entire scheme.

Promptly at twelve o'clock next Monday night the big standpipe will become the world's largest Lemonade Jar, and any dry citizen can quench a burning thirst at any ordinary water faucet in the city.

## BURIAL SERVICE MRS. AARON HYER

Rev. J. F. Henkle conducted the funeral services of Mrs. Aaron Hyer at the home near Jasper Wednesday morning at ten o'clock.

Mrs. Hyer was one of the old residents of the county and there were many of the friends of earlier days who gathered with relatives and friends of the younger generation in farweld tribute of regard.

The minister followed the memoir with an excellent talk and appreciative reminiscences.

Mrs. Ed Cline and Mrs. Bruce Mark sang sweetly the two favorite hymns of the deceased, "Nearer My God to Thee," and "Somewhere."

The burial was made in the Washington cemetery; the nephews acted as pallbearers.

## BUSINESS MEN FAVOR MEMBERS OF COMPANY

The various business men of the city have very generously offered their services for the comfort and convenience of members of the local company, during their past week of mobilization.

The Rothrock Laundry has agreed to wash the towels of every member as long as they are in the city, and Mr. Frank Bending has very liberally presented the company with a carton of ground smoking tobacco.

The members of the company are all very grateful for all such favors shown them by the public spirited citizens of our city.

## DAYTON "Y. W." INVITES GUESTS

The Young Woman's Christian Association of Dayton welcomes all women and girls to their building, Corner Third and Wilkinson streets.

When in the city, sight-seeing, or on business of any sort, you can find a cool rest room, bright and cheery lunch room, and all conveniences desired. It is a woman's building, open from 7:30 a. m. to midnight, and you are heartily invited to use it at any and all times. Meet your friends there or wait for traction. Someone always ready and willing to give information about the city. A house of friendliness.

## ONE ABSENTEE UNDER ARREST AT SPRINGFIELD

Clever Detective Work By Sheriff Jones Is Successful—Estel Stuckey to Be Brought Here This Evening.

Estel Stuckey, one of the members of Company M who has been absent without leave since the call for mobilization, was issued eight days ago, was located in Springfield Tuesday by some clever detective work by Sheriff Jones.

A messenger was sent to Springfield to bring Stuckey to this city but when he refused to accompany the messenger, Sheriff Jones gave the address of the man to the chief of police in Springfield.

He was forthwith arrested and lodged in the Clark county jail.

A guard was sent to Springfield Wednesday afternoon to bring the prisoner to this city on the evening train.

# MEXICANS ANNOUNCE OBJECTION

Embargo on Foodstuffs Produces a Protest.

## ARREDONDO WRITES NOTES

Protests Against Ban on Shipments of Merchandise Into Mexico and Demands Release of Mexicans Arrested on Border by Civilian Authorities. Carranza Restricting Exports Into the United States.

Washington, June 28.—Two communications were addressed to the state department by Eliseo Arredondo, the Mexican ambassador, one demanding release of certain Mexican civilians arrested on the border by civilian authorities and the other requesting relief from an embargo placed by American customs authorities on the shipment of foodstuffs and other merchandise into Mexico.

Concerning the Mexican civilians on this side of the border the ambassador advises the state department that the Mexican consul at San Francisco notified him that at Redding, Cal., one group of 15 Mexicans was arrested last week and another of 14 on June 25 by the local authorities of that town without cause. The ambassador further states, in addressing the department, that J. M. Gonzales, agent of the treasury of the state of Sonora, Mexico, was arrested without cause at Tucson, Ariz.

Regarding the "action of the customs officials in holding up shipments, the second communication to the department observes that despite the fact that the embassy has received from the American government no formal notice of a general embargo, Mexican consular officers in the United States have reported the hold-up of all kinds of merchandise destined for Mexico.

The note expresses confidence that such action by the local authorities is not the result of any orders from Washington, and that the customs officials were acting entirely on their own responsibility, due to conditions now obtaining with respect to the situation existing between the two governments. In requesting that the shipments be released the communication calls attention to the fact that the Mexican government is now restricting exports into the United States. If such practice continues, the ambassador advises Mr. Lansing, it will naturally tend to aggravate the situation.

Department officials who were seen to have no knowledge of the arrests referred to, but seemed to regard it as likely that the request for their release was made in consequence of the American demands.

The decision to hold up shipments of foodstuffs and other merchandise, as well as shipments of arms and ammunition, though informal, was determined upon pending the development of the next move on Carranza's part.

## HUNTS COMFORT

(By American Press)

Mexico City, June 28.—General Carranza has sent a message to Ambassador Arredondo, Mexican representative at Washington, urging him to get in touch with the diplomatic representatives of the Latin-American republics, who offered their assistance in mediating the present situation, and to urge them not to spare their efforts to preserve peace. Carranza sent to them recently the following message:

"The American government has ordered a sudden concentration of its army along our frontier, with manifest hostility, trying to involve us in a war which neither the Mexican government nor people have provoked. War seems inevitable, although unjust and ill-matched, for both the government and people of Mexico are determined to defend their sovereignty and absolute independence, even at the cost of the blood of their sons and the destruction of their riches.

"The government believes, and thus faithfully affirms, that the conduct of the American government does not harmonize with its protestations of friendship for Latin-American republics, and that its unjustifiable proceedings with Mexico affect other sister republics and tend to break the bonds which, by a community of ideals, origin and interests, should and do unite them in close solidarity now and hereafter."

Some of the republics to which this note was sent have replied, deploring the situation and offering friendly mediation.

## WILL REFUSE THE RELEASE OF TROOPERS

Carranza Said to Have Rejected American Demand.

Washington, June 28.—Central and South American diplomats heard that General Carranza has rejected the demands of the United States for the immediate and unconditional release of the American troopers held at Chihuahua.

The feeling in these Latin-American quarters was decidedly pessimistic. South American diplomats were practically one in declaring that there is no prospect of settling the dispute through arbitration if Carranza refuses to release the prisoners, and for that reason all idea of renewing the mediatory offers has been abandoned. No confirmation of these reports was obtainable in administration circles. Officials are still waiting with tense interest for the formal reply.

In administration quarters the view was expressed that if Carranza rejects the demand or fails to answer it within the next forty-eight hours the president will go before congress and ask authority to take what steps he may deem proper for the use of the armed force of the country, including the national guard, in rescuing the troopers and further safeguarding the American border. It was learned, however, that the president within the last twenty-four hours has informed intimate advisers that, regardless of what effect it might have on his political fortunes, he is determined to exhaust every extreme of patience to avert war between the United States and Mexico.

The grand maxim nowadays is "to work, always to work and still to work."—Leon Gambetta.

# ITALIANS MAINTAIN OFFENSIVE

Recapture Towns as the Austrians Fall Back.

## FRENCH ANNOUNCE GAINS

Claim Recovery of Territory Lost Recently in the Thiaumont Sector. Germans Assailing Russian Lines Southwest of Kolki—Activity Noted On the Northern Part of Western Front—Day's Operations.

London, June 28.—Rome reports the recapture by the Italians of Arsleror and Posina, in the sector between the Adige and the Setto Commune plateau. Both places were taken by the Austrians in their recent rush toward the Venetian plain, shortly before their advance was checked by the necessity to withdraw troops from the eastern front.

Activity on the northern part of the western front, the part occupied by the British and the left wing of the French forces, is reported by the German war office.

No considerable infantry attacks have yet been announced by either side on this front and even the usual heavy bombardment preceding such an attack is so far lacking.

On the Verdun front the French made further gains in the Thiaumont sector, and an attack by the Germans on the part of Fleury still occupied by the French was repulsed. The German official statement says that the French attacks in the Thiaumont-Fort Vaux region were ineffective.

The bombardment in the Verdun region reached a greater intensity in the sector of Elix, south of Dambloup, at the foot of the heights of the Meuse.

The most important action on the eastern front took place southwest of Sokul, on the Sty, southwest of Kolki, in the sector where the Germans have concentrated the bulk of their forces to fight their way to Kovel, and if possible to drive the Russians out of Volhynia. Berlin announced officially that Russian lines in this region were stormed, the Germans taking several hundred prisoners. Russian counter attacks failed.

Both the Austrian and Russian war office statements indicate that the battle on the Kolki-Sokul front overshadowed in violence and importance all other operations in the east at present.

## AMERICANS LEAVING

(By American Press)

Washington, June 29.—It is estimated at the state department that in the last ten days 4,000 Americans have left Mexico, leaving only about 1,000, of which 200 are in Mexico City and the rest at Tampico and Vera Cruz. All Americans at Ciudad Carmen left on the steamer Harold for New Orleans. A report from Frontera states that ten Americans have refused positively to leave.

# THE STATE PITILESS

(By American Press)

Waukegan, Ill., June 28.—Under a merciless hammering of the prosecution, Will H. Orpet weakened on the witness stand and admitted that his previous statements—that his intentions towards Marian Lambert had nothing improper in view—were untrue. Time and again State's Attorney Joslin, using the university man's own letters, pinned him down and forced him to admit that the dead girl had been the victim of numberless coarse and passionate declarations and threats in the love missives, and then the prosecutor, following up his advantage, sought to have Orpet impeached. The court withheld its decision. Orpet in his testimony blamed the dead girl, saying in effect that none of his advances were repelled.

Perhaps the chief point scored by the prosecution was the fact that Orpet had failed to mention the bottle of molasses and water in his careful enumeration of the things in his room. On direct examination he had testified that he had carefully filled the bottle that night to take with him and had given a minute description of how he had done it.

London, June 28.—The air is charged with rumors of a serious cabinet crisis over the Irish home rule compromise. The fact that there were two prolonged cabinet councils, in addition to party meetings, seemed to confirm this view. The Marquis of Lansdowne, minister without portfolio, and Walter Hume Long, president of the local government board, are reported to have resigned, but that their resignations had not been accepted.

## CONSTRUCTION OF WILL ASKED

Trustees of the M. J. Williams Estate Want Court to Indicate Line of Distribution Between Rival Claimants.

The case of A. R. Creamer and C. P. Ballard, Trustees of the last will and Testament of Marshal J. Williams, deceased, against Laura K. Williams and others was heard by Judge Carpenter of the Common Pleas Court on Tuesday of this week. The case is one of especial interest because of the fact that Judge Williams, the author of the will was for many years a member of the Supreme Court of Ohio and recognized as one of the greatest Jurists in the middle West.

The suit was brought by the Trustees for the purpose of having the Court instruct them as to the manner of making distribution of the estate of Judge Williams. Because of the language used in making certain devises and bequests the Trustees are in doubt as to how to proceed and by this suit seek to have the court construe the will and instruct them as to their duties.

Under the will of Judge Williams the whole estate is given to Mrs. Williams, the widow during her life she to collect all rents and incomes etc.

At the death of the widow, the will provides that all property shall be converted into a fund by trustees, named, and the trustees to distribute the funds according to item 6 of the will.

Item 6 provides that the entire fund shall be divided into 8 equal shares. One share is given to each one of the testator's sisters living at that time. One share is given to the niece of Judge and Mrs. Williams, Minnie Slye and the remaining shares are given per capita to the testator's nieces and nephews.

The trustees A. R. Creamer and C. P. Ballard ask instructions as to whether the grand nieces and nephews whose parents are dead are entitled to share in the distribution as they claim. The trustees also want a ruling of the court as to whether the rents and profits of the estate unconsumed by the widow during her life time are a part of the estate of Judge Williams or a part of the estate of Mrs. Williams as claimed by the executor of her estate, John Logan.

The attorneys engaged, pro and con are Creamer, Creamer and Thompson, W. B. Rogers, John Logan of this city and D. W. Murphy of Cincinnati.

The entire estate now aggregates about \$90,000 and the questions arising on distribution are novel and intricate.

While the hearing was concluded Tuesday evening Judge Carpenter has not yet announced his conclusion.

WILL YOU SOLVE THE MYSTERY ?

## BURIAL SERVICE MRS. AARON HYER

Rev. J. F. Henkle conducted the funeral services of Mrs. Aaron Hyer at the home near Jasper Wednesday morning at ten o'clock.

Mrs. Hyer was one of the old residents of the county and there were many of the friends of earlier days who gathered with relatives and friends of the younger generation in farewell tribute of regard.

The minister followed the memoir with an excellent talk and appreciative reminiscences.

Mrs. Ed Cline and Mrs. Bruce Mark sang sweetly the two favorite hymns of the deceased, "Nearer My God to Thee," and "Somewhere."

The burial was made in the Washington cemetery; the nephews acted as pallbearers.

## BUSINESS MEN FAVOR MEMBERS OF COMPANY

The various business men of the city have very generously offered their services for the comfort and convenience of members of the local company, during their past week of mobilization.

The Rothrock Laundry has agreed to wash the towels of every member as long as they are in the city, and Mr. Frank Bending has very liberally presented the company with a carton of ground smoking tobacco.

The members of the company are all very grateful for all such favors shown them by the public spirited citizens of our city.

## DAYTON "Y. W." INVITES GUESTS

The Young Woman's Christian Association of Dayton welcomes all women and girls to their building, Corner Third and Wilkinson streets.

When in the city, sight-seeing, or on business of any sort, you can find a cool rest room, bright and cheery lunch room, and all conveniences desired. It is a woman's building, open from 7:30 a. m. to midnight, and you are heartily invited to use it at any and all times. Meet your friends there or wait for traction. Someone always ready and willing to give information about the city. A house of friendliness.

Mrs. C. H. Shoop of Sabina entered the Fayette Hospital Wednesday morning to undergo an operation. Dr. Drury of Columbus performed the operation.

## ONE ABSENTEE UNDER ARREST AT SPRINGFIELD

Clever Detective Work By Sheriff Jones Is Successful—Estel Stuckey to Be Brought Here This Evening.

Estel Stuckey, one of the members of Company M who has been absent without leave since the call for mobilization, was issued eight days ago, was located in Springfield Tuesday by some clever detective work by Sheriff Jones.

A messenger was sent to Springfield to bring Stuckey to this city but when he refused to accompany the messenger, Sheriff Jones gave the address of the man to the chief of police in Springfield.

He was forthwith arrested and lodged in the Clark county jail.

A guard was sent to Springfield Wednesday afternoon to bring the prisoner to this city on the evening train.

### A Group of Tents In State Militia Camp

National guardsmen are well supplied with tents for field service. This picture shows a camp scene during a war game.

## ORDER TO HELP THE RECRUITS

Boys Young as Sixteen Will Be Accepted.

AGE LIMITATIONS WIDENED

Men as High as Forty-five Years of Age Also Eligible, Under Instructions From Washington and Relayed by Adjutant General Hough—National Guard About to Move.

Columbus, June 28.—Mobilization was deferred from today to tomorrow morning because quartermaster supplies have not been received from federal arsenals. Soldiers are not wanted at the mobilization camp until they can be supplied with adequate blankets for slumber and clothes, said Adjutant General Hough.

Postponement of the tentative date set for mobilization was decided at a conference between General Hough, Quartermaster General Duffy, Brigadier Generals McMaken and Speaks, Chief Federal Mustering Officer Mearns and Assistant Adjutant General Bryant.

The mobilization camp is ready to accommodate at least one regiment, it is said, and from now on is expected to progress rapidly enough to accommodate two additional regiments each successive day. Not more than two regiments a day will be called at any time, according to present plans. The Eighth infantry, Colonel Edward Vollrath, Bucyrus, commanding, still is slated for first call.

Orders to accept boys of 16, with parents' consent, and men as high as forty-five years of age, went out to all regimental and battalion officers from Adjutant General Hough upon receipt of such instructions from the war department at Washington. As a consequence Ohio national guard organizations are expected to jump quickly to war strength.

Lengthening the years of eligibility for service in the national guard was welcomed by officers. The latter have been complaining about many parents being unwilling to consent to sons enlisting. Recruits now can enlist without parents' consent as young as eighteen years, whereas formerly consent was necessary up to the age of twenty-one. Under the new rules, the consent requirement still obtains between the ages of sixteen and eighteen. The age limit for officers are twenty-one and sixty-four. Widening of age limitations was taken here to indicate general difficulty in recruiting and a critical need for immediate enlistments.

## 'TIS RUMORED

American Relief Column Said to Have Avenged Carrizal.

El Paso, Tex., June 28.—Carrizal has been avenged, at least in the number of prisoners taken, if reports brought here from the Pershing base are true. Americans who left Colo-

nia Dublin brought the report that as they left the camp trucks were arriving with Mexican prisoners. One man said he counted forty prisoners, all Carranza soldiers. He said the escort in charge of the trucks reported that one of the American columns sent to the relief of Carrizal, had encountered a force of Carranzistas on the Santa Maria river and had killed a large number and made many others prisoners.

Major John M. Jenkins was in command of the expedition sent to the relief of the Tenth cavalry victims of the Carrizal fight, but it is not known if his troops or another command of American forces engaged the Mexicans.

Two more of the American commands at Carrizal were accounted for when two negro soldiers of the Tenth cavalry were brought to Juarez from Guzman. They are now being held as prisoners in the old federal jail in Juarez in charge of the militia.

## REPORTS SHOW MEXICANS BUSY

(By American Press)

Washington, June 28.—Confidential reports to the state department indicate that Carranzista forces, taking advantage of the military delays in this country, are concentrating large bodies of seasoned troops in the vicinity of Chihuahua, with the apparent intention of preparing for hostilities. This being the case, officials here do not anticipate a backdown by Carranza from his orders to the Mexican commanders not to permit the Pershing forces to move any further east, south or west.

If forced to take aggressive steps for the rescue of the American prisoners held at Chihuahua, the president is said to have determined he will do nothing more than enlarge the punitive force in Mexico, order Funston to effect the release of the troops and then fall back for the defense of the border.

## WILLCOX LANDS AS CHAIRMAN

Will Manage Hughes' Presidential Campaign.

New York, June 28.—William R. Willcox, former postmaster of New York and ex-chairman of the public service commission, was selected chairman of the Republican national committee and will manage Charles E. Hughes' presidential campaign.

The announcement was made by Mr. Hughes at the Hotel Astor, after he had held a conference, with members of the so-called "steering committee" of the Republican convention. Mr. Hughes declined to discuss the selection of Mr. Willcox as national chairman was a personal one, and due to his confidence in the new chairman. The new chairman is a close personal friend of Mr. Hughes, who, when he was governor of New York appointed him to the chairmanship of the state public utilities commission.

Although Mr. Willcox has been comparatively active in Republican politics, he has never figured prominently as a member of the so-called organization crowd. He has belonged to the Hughes group of Republicans in New York. He is an attorney with offices here and is a member of the Union League and New York Yacht clubs. He was born at Smyrna, N. Y., and is fifty-three years old.

Phillips Brooks once gave a new version of the Jonah story to a wondering skeptic, who said he doubted whether a whale's throat was large enough to swallow Jonah. "There was no difficulty," said the bishop. "Jonah was one of the minor prophets."

## ANOTHER RAID

(By American Press)  
El Paso, Tex., June 28.—Excitement here over the Mexican controversy was increased with the receipt of news of a bandit raid across the border near Hachita, N. M., resulting in the murder of William Parker, an American ranchman, and his wife. Military authorities doubted that the marauders would be overtaken before they crossed into Mexico, pointing out that the ranch is only four miles from the Mexican line.

American cavalry has started in pursuit of the murderers of the Parker couple, and if necessary the pursuers will cross the border. At the time of the murder the bandits ran off approximately twenty-five horses, which military officials say will assist them in finding the trail. The Parker ranch was visited several days ago by Mexican bandits and a number of horses and cattle run off.

## NOTED LEADER OF BIG BAND

Passafiume, the conductor of the Royal Italian Band, with the Metropolitan Shows, in the city this week, has had a very interesting career.

Born of a family of musicians in Italy, he came to the United States eighteen years ago in order that he might complete his studies in the musical circle of New York.

Since his coming to this country he has spent most of his life in New York, where he gained considerable recognition among the artists and musical leaders. He was at one time director of a sixty-piece concert band and toured the east and south.

At the present time he controls the Riverside Park Band of 25 pieces, playing in Ashville, North Carolina. He spends his winters there as leader. He has selected ten of his most experienced band members to accompany him as the Royal Italian Band, in his summer tour with the Metropolitan Shows.

Last season he had occasion to be in Lexington, Ky., with his Royal Italian Band on the same date as a certain Chautauqua concert band was playing there. Playing in competition with the other band Mr. Passafiume carried away a handsome medal for having the better band.

Critics who heard the concert in this city Sunday were well pleased with the excellent manner in which they rendered very difficult operatic numbers.

## SUNRISE RESTAURANT HIGHLY COMPLIMENTED

Captain Hardway and the members of Company M are all well pleased with the excellent treatment received at the Sunrise Restaurant, during the past week that they have taken meals there.

Mr. Armintrout, the proprietor, has served in the coast artillery of the Regular Army and understands the likes and dislikes of the boys.

Only the best of everything is served, pure lard is used in cooking and country or creamery butter and good cream are served on the tables.

The capacity of the restaurant for good service has been taxed but, never-the-less, Mr. Armintrout has been able to take care of all of his regular customers.

## CLASH NEAR AT NOGALES

Mexicans Driven Back Across the Line and Our Boys Ordered "Straight Across if Shot Comes."

By Associated Press Dispatch.

Nogales, Arizona, June 28.—

American occupation of Nogales, Sonora, loomed close early today when eight Mexican soldiers were driven back by a United States sentry post as they tried to cross to the American side.

The Mexicans withdrew, and Major William Brooke ordered his men to "drop anybody you see acting suspiciously."

"If a shot comes from over there we'll go straight across."

## CASEMENT SPEAKS IN OWN CASE

CHIEF COUNSEL ARGUES THAT INDICTMENT CHARGING TREASON AGAINST SIR RODGER IS FAULTY.

PRISONER DENIES IN TOTO SOME OF THE DAMAGING ITEMS OF EVIDENCE — PLAINLY MUCH PERTURBED.

(Associated Press Cable)

London, June 28. — Alexander Sullivan, chief counsel for Sir Rodger Casement, resumed his argument in an attempt to show the indictment charging Sir Rodger with high treason was faulty when the court convened today.

After he had concluded his address, the Court overruled his motion to quash the indictment.

Announcement was made by Mr. Sullivan that the prisoner desired to make a statement. Sir Rodger's statement was delivered in a clear voice, but it was plain he was laboring under a great nervous strain.

The prisoner leaned heavily on the rail of the dock and his hand that held the paper shook as though palsied. He said in part:

"There are, in especial, four mis-statements given in the evidence against me which I must refute.

"First, I never at any time advised Irishmen to enlist with the Turks, Russians, or to fight with the Germans on the western front;

"Second, I never asked an Irishman to fight for Germany;

"Third, the horrible insinuations that I got my own people's rations reduced to the starvation point because they did not join the Irish brigade is an abominable falsehood;

"Fourth, there is the widespread imputation of 'German money.' I owe it to those in Ireland who are assailed with me on this very ground to nail the lie once and for all.

"It was published by newspapers in America, I think originating in this country, and I cabled to American instructors my American lawyer to proceed against those papers for libel."

Today's session of the trial was brought to a sudden and dramatic close. While summing up for the defense, Mr. Sullivan collapsed as he was in the midst of an impassioned appeal, and the court adjourned until tomorrow morning.

### INSECT TRAVELERS.

Moths, Butterflies and Beetles Make Long Distance Journeys.

Mr. William Evans, a Scottish naturalist, who has made a lifelong study of the fauna of Scotland, obtained from a dozen Scottish lighthouses 241 species of insects, which include two butterflies, 159 moths, eighteen caddisflies and lacewings, forty diptera, ten beetles and a dozen other species. Most of the specimens were males.

To reach the Isle of May, in the Firth of Forth, where Mr. Evans collected most of the insects, many of the specimens must have flown across several miles of sea.

In his records Mr. Evans calls attention to several other extraordinary flights of insects.

Thus, the "painted lady," or thistle butterfly (Pyramalus cardui), has been known to cross the Alps; the red admiral butterfly (Vanessa atalanta) has landed in numbers on the deck of a vessel 500 miles from the coast of England; the common white butterfly (Danais archippus), abundant everywhere in the United States, is said to make the 2,000 mile journey from California to the Hawaiian Islands and has gradually progressed by way of the south sea islands as far as Australia.

A death's head moth has boarded a steamer 200 miles off the Cape Verde islands. Clouds of ladybirds miles in extent, so that they resembled smoke from a steamer, have been seen at sea. A swarm of locusts that passed over the Red sea in 1889 is said to have extended over 2,000 square miles, and it was estimated to weigh 42,850,000,000 tons!

### SLOW ACTING NERVES.

Earthworms and Clams In No Danger of the Strenuous Life.

The common earthworm has two sorts of nerves.

One of these is a thread running lengthwise of the body between the places where head and tail would be if the creature had either. This nerve has only one use—to carry the signal to shorten up.

So when the worm, keeping underground by day, comes by night half way out of its hole and suspects, though he cannot see, the early bird looking for breakfast, whisk goes the signal along the nerve thread, one end of the body flattens out and locks fast in the burrow, and the rest pulls into safety.

This sort of nerve carries a message at the rate of a yard and a half a second, or about seventy times more slowly than our own do.

The other sort of nerve takes care of the crawling. Signals along these nerves travel only an inch a second. If our inner telegrams were sent as slowly, it would be a whole minute from the time the pitcher threw the ball till the batter started to swing his club at it.

Yet, as the simpler creatures go, the earthworm is not especially sluggish. The fresh water clam, for instance, gets word from one part of its body to another at only half the earthworm's rate. So it is 2,400 times slower than a man.—Edwin Tenney Brewster in St. Nicholas.

### Photographs on Living Leaves.

A process of taking a photograph on the leaf of a plant is described in an article by Dr. Hans Molisch in Die Umschau, a translation of which appears in the Scientific American. Briefly, the process is as follows: Fasten a negative with strong con-

tracts to a very smooth, thin, hairless growing leaf, such as the Indian cress, scarlet runner or nasturtium, and leave it exposed to strong sunlight for several hours. Then cut the leaf from the plant, steep it in boiling water for half a minute, then immerse it in warm 80 per cent alcohol. After a little time the leaf, now white, is immersed in a dilute tincture of iodine. The result is a positive photograph, often of surprising sharpness.

### Capable of Correcting the Dictionary.

It is futile to attempt to instruct the forward youth of this our day. One who sat at lunch with us the other day remarked in the course of a narrative, "and then the poor fellow sat and wrang his hands."

"There is no such word as 'wring,'" said we.

"There wasn't before I spoke, perhaps," said he, "but there is now."—Philadelphia Ledger.

### Von Der Goltz a Novelist.

A good deal of the late Field Marshal von der Goltz's reputation rested upon his military text books, and it is interesting to recall that he first won literary fame by writings of a very different character. When a poor cadet at Grosslichterfelde with a widowed mother to support he turned his hand to novel writing and gained a considerable reputation by a series of sentimental romances.—London Chronicle.

### Mustard Seed.

All mustard seeds contain a ferment, myrosine, and a glucoside called sinigrin. This ferment acts upon the sinigrin in the presence of water, producing the essence of mustard in which is found its characteristic ex-
